NEWS FROM FAR EASTERN CONFLICT

Russian Paper Wants War To Continue Until They Win.

KAISER DECORATES GENERALS

General Nogi Reports Additional Prisoners of War to His Government.

Japs Destroying Mines in Port Arthur Harbor Put There by Russians.

St. Petersburg, Jan. 11.—The Russ today confirms the Paris Temps report of yesterday that the first division of the third Pacific squadron will leave Lebau at the end of January and will consist of the warships Admiral Senjavon, General Admiral Apraxin, Admiral Oushatoff and Sylis I, the cruiser Vladimar Monomach and several torpedo boat destroyers, and torpedo boats.

In a lengthy review of the military situation the Novoe Vremya urged the immediate reinforcement of Vladivostok, the island of Sakhalin and Kamchatka. The paper says:

"There is little probability of the Russians being caught as unprepared at Vladivostok, as at Port Arthur, but the moral responsibility rests on the government to see that nothing in the way of defensive preparation is overlooked. Sakhalin and Kamchatka are both harder to defend and have a scanty population, but are both rich in mineral and other resources, and are especially inviting to the Japanese for territorial expansion.

Continuing, the Novoe Vremya points out that it is possible to send reinforcements and supplies to Sakhalin and Kamcratka while the ice lasts, independent of sea power, and begs that this should be done at once.

Touching on the general peace talk in the foreign press, the Novoe Vremya summarizes the list of of Russian reverses in the present war, and asks if it is possible to consider the question of peace without substantial Russian victories.

Russian Ships at Port Said.

Port Said, Egypt, Jan. 11.—The division of Russian warships commanded by Rear Admiral Botrovisky which left Suda bay, island of Crete, Sunday, has been sighted heading for this port.

News from Tokio.

Tokio, Jan. 10.—10:30 a. m.—General Nogi reported additional prisoners of war as follows:

Major General Snikitin and Major General Balle and Rear Admiral Wirren.

The patroled, besides General Stoessle, include Major General Ries, Nadiena, Kostinkow and Rear Admirals Prince Ouktomsky, Gregorovitch and Rosetiliski and Enginer in Chief.

They navy department says that the district covered with submarine mines had a radius of 40 miles outside of Port Arthur. It reported the destruction and explosion of 395 of these mines to date.

Ten additional survivors for the hired expedition found were started to clear the entrance to the Port Arthur harbor. They have been transferred to the Japanese.

Decorated By German Emperor.

Berlin, Jan. 11.—Emperor William has conferred on General Stoessels and General Nogi the order of The Pour le Merite in recognition of the bravery of themselves and their troops at Port Arthur. His majesty has third expedition found were started prior to authorize General Stoessels and Nogi to accept the decorations.

Russian Refugees in New York.

New York, Jan. 11.—A number of Russians who left their homes to escape conscription, arrived here today on the steamer Blucher. Nochim Ma[illegible], aged 54, who left Russia with a party intending to make his home in this country, died suddenly of heart disease during the voyage and was buried at sea. Among the saloon passengers on the Blucher were several Russian army officers who will go to service in West Indian waters.

WAR CLOUDS OVER BALKANS.

Turkey and Bulgaria May Clash in a Deadly Struggle.

London, Jan. 11.—The active preparations already reported to have been made both in Turkey and Bulgaria for a possible war this year are fully confirmed by a private letter received in London, from a minister accredited to the Balkan courts.

This minister, who has just completed a tour of the Balkan capitals, writes that the Turkish and Bulgarian governments are entirely prepared for eventualities. Large shipments of arms and ammunition have been made and recruits from Asia Minor are arriving at Salonica for service in the Turkish army.

The Bulgarian and Greek bands in Macedonia are increasing daily and are fighting each other and the Turks. This three-cornered guerrilla warfare threatens to assume the bloodiest phase in the spring.

"But," concludes the minister, "as to whether or not there will be real war between Bulgaria and Turkey in the spring, I am not prepared to say. Unless certain powers think the time is opportune, war may be postponed this year as last, but in any event we are a year nearer the inevitable conflict."

WHO WILL GET THE MONEY.

Treasure Found In New York Awaiting Lawful Owner.

New York, Jan. 11.—Who will get the treasure, said to be valued at $150,000, found in an old rusty iron box under the site of the old Macey mansion, in the Bronx, is a question that may put to test some nice and novel points of law.

Contractor Meehan, who recently purchased the land from the estate of the late Theodore F. Macey still holds the box in his possession, and does not believe the Macey heirs have any right ful claim to its contents. I have gone far enough into the box, he said, to find that it contains more than $100,000, mostly of gold money, of various countries, and that there is no document or paper in it indicating that it ever belonged to any of the Macey family. If they can establish a claim, they can get it. There is nothing in the box with a date on it later than the civil war.

CHEAP RATES TO CONVENTION.

Railroads Grant Reduction In Fare for Cotton Growers' Meeting.

New Orleans, Jan. 11.—The Southeastern Passenger association has just notified the New Orleans Progressive Union that a rate of one fare for the round trip plus 25 cents has been authorized by all interested lines for the convention of the Southern Cotton Growers' Protective association which meets in New Orleans Jan. 24, 25 and 26.

President Harvie Jordan, anticipates a large gathering of southern cotton growers, bankers, merchants and mill men when plans will be devised for warehousing and holding cotton for higher prices.

The Waco plan is one which is engaging the attention of al, as the method will be a feature program of discussion.

Jealous Boy Tries Suicide.

Newport News, Jan. 11.—Because his girl sweetheart, still in short skirts, attended a church entertainment with another boy, Peter Spratley, 17 years old, procured a revolver and informed several friends at the church he would not be alive in the morning. Then he went to the rectory, leaned against the front door and shot himself in the stomach. He probably will not recover. Spratley is a brother of Vernon Spratley, formerly principal of the Newport News High school, now of the University of Virginia.

Girl Commits Suicide at a Dance.

Chicago, Jan. 11.—Mabel Wright, a daughter of a wealthy Englewood family, committed suicide at a dance in the American theater. She left a note saying: "I cannot stand it any longer. My husband has deserted me." Her parents and brother say they never knew she was married and do no believe it yet. The police are looking for a broker who is said to be her husband.

PREFER CHARGES AGAINST SWAYNE

Special Committee Makes Its Report To Tho House.

OTHER NATIONAL CAPITAL NEWS

Senator Cockrell Accepts Appointment by President on the Interstate Commerce Commission—House and Senate Grinding on Routine Business.

Washington, Jan. 11.—The select committee of the house appointed to draft articles of impeachment against Federal Judge Swayne today completed its work by the preparation of 12 articles of impeachment. They embrace obtaining money by false pretenses; using the property of a bankrupt corporation in the hands of a receiver apointed by himself, and without making compensation to the company; for disobeying the law requiring him to live in his district; for "unlawfully and maliciously" fining and imprisoning E. T. Davis and Simeon Belden, attorneys at law for alleged contempt of the circuit court of the United States; for "unlawfully committing to prison" W. C. O'Neal, on the charge that he had committed contempt of the district court of the United States.

A minority report signed by Repesentatives Littlefield, of Maine, and Parker, of New Jersey, dissents to all the articles of impeachment except that pertaining to the falsification of the expense account of Judge Swayne.

Representative Gillett, of California, also signed this report with a note that he dissents from all the articles of impeachment.

Washington, Jan. 11.—Senator Cockrell, of Missouri, has decided to accept the position on the interstate commerce commission offered him some time ago by President Roosevelt. He will succeed Commissioner James Yeoman, of Iowa, whose term expired on the 7th instant. Senator Cockerill has indicated his decision to the president but he expects before assuming his new duties to complete the term for which he was elected to the senat. That will expire on the 4th of March next.

In the House.

In the house today the army and Indian appropriation bills were reported. A resolution was adopted directing the secretary of the interior to inform the house whether or not any of the principal or interest on any Indian trust funds or other moneys of any Indian tribe are being expended for support of any Indian contract schools other than government schools, and if so, what authority he had for so doing.

The house then went into committee of the whole to further consider the bill to improve currency conditions.

In the Senate.

At the beginning of today's session of the senate Mr. Cullom, from the committee on appropriations, reported, the executive, legislative and judicial appropriation bill, and gave notice that he would call it up for action at the first opprtunity.

In presenting a number of petitions for the expulsion of Senator Smoot from the senate, Mr. Daniel said:

"The petitions concern the right of a senator to his seat. Nothing is officially known to the senate concerning this case, which is in committee, and I don't know how the signers of the petitions could pass on the case without the knowledge of the testimony. I present the petitions because the people have the right to send them, but not because I recognize the propriety of them."

Attempt to Blow up Statue.

An unsuccessful attempt was made today by one or more civilians to blow up the statue of Frederick the Great, recently presented to this government by the emperor of Germany, and now standing in the war college grounds. A charge of explosives with lighted fuse was attached to the fence surrounding the statue, but was removed by an employe before it exploded. No damage resulted to the statue or to property or persons.

Prompt measures were taken to obtain the perpetrators of the crime before they left the grounds, but they did not succeed. The police authorities have been notified and all available information is being placed before them with a view to arresting the guilty parties.

ANDY POPE ENDS HIS LIFE.

After He had Killed His Brother Jesse He Takes Poison.

Montgomery, Ala., Jan. 11.—The details of the killing of Jesse Pope by his brother, Andy Pope, at Midland City, last week, and the suicide of the latter by taking strychnine, show that Andy was fully at himself before he took the drug, and did it with every faculty exercising its funtions.

After the shooting he went to the home of another brother and secured the drug. He told the members of the household what he had done, and that he was going to take his own life. They undertook to get the poison from him, but stood them off with the pistol he had used to kill his brother.

He then went back to where the shooting had taken place and assured himself that Jesse was dead, and went to his home, where he informed his wife what had occurred, and [illegible] his own determination to die. She pleaded with him, and tried to get to him but he kept her back and made her prepare the bed for him. Then he told her to summon her people, which she did, and as soon as he saw them coming he swallowed the drug, got into bed and was dead in 20 minutes.

After taking the poison he told what he wanted done with his property, and gave instructions about the care of his family.

NAN PATTERSON STILL IN JAIL.

She Is Suffering with Tonsilitis and an Operation May Be Necessary.

New York, Jan. 11.—Nan Patterson, who is awaiting a second trial on a charge of killing Caesar Young, a wealthy bookmaker and horseman, is ill with tonsilitis in her cell in the Tombs prisons. Her condition is regarded as serious by the Tombs physician, and he said that she would probably have to submit to an operation for the removal of her tonsils. Miss Patterson receives a large number of letters every day. In her mail today there was a registered letter from a man in Portland, Ore., inclosing $25, with the request that she use the money to purchase for herself a New Year's token. The letter said Miss Patterson has many sympathizers in the west who believe her innocent, and concluded:

"If you need more money, say the word."

Miss Patterson gave the money to her father, saying, "Take this and buy mamma a present and tell her I am sorry I am not home with her."

COMMISSION RESUMES ITS WORK

Evidence Concerning North Sea Incident Will Be Heard.

Paris, Jan. 11.—The international commission to inquire into the North ea incident resumed its sessions at the foreign office today.

Admirals Von Spaun (Austria) and Doubassoff (Russia) were present, the latter's appointment was officially announced thus making permanent Admiral Kazanakoff's retirement on account of illness. Admiral Fournier (France) was unanimously chosen permanent president. In the context of his speech of acceptance Admiral Fournier said he hoped the commission would be spared with the same moderation and wisodm which induced Emperor Nicholas and King Edward to refer the question to arbitration.

Senator Smoot Opens Defense.

Washington, Jan. 11.—The opening of the defense in the investigation of the protests against Senator Smoot from Utah have been continued until tomorrow on account of the inability of A. S. Worthington, counsel for Senator Smoot, to attend. Mr. Worthington and Attorney Waldemar Vanco were in Utah and Idaho during the recess of congress interviewing witnesses to be called to commat the testimony against Senator Smoot and the Mormon church. Judge W. H. M Van Cotton, of Utah, and F. S. Holtzinger, of Idaho, and Representative French of Idaho, were the only witnesses present today.

GERMANY IS FACING BIG COAL STRIKE

Nearly 300,000 Miners Likely To Quit Their Jobs.

ONLY WEEK'S SUPPLY ON HAND

Mine Owners Claim They Cannot Agree to the Demands of the Miners. May Stop the Wheels of Industry Throughout Empire.

Cologne, Germany, Jan. 11.—Both the miners and mine owners throughout the Rhenish and Westphalian districts are preparing for a general strike. So far only 20,000 out of a total of 270,000 men concerned have gone out.

The mine proprietors began to rerejecting requests yesterday and as soon as their replies are received the miners, according to their previous decision, do not go to work when it is time for their next shift. The employers under the law fixing trade relations between employer and employe are notifying the miners to return to work or be discharged with the loss of six days' wages.

The miners at seven in the Dortmund mines went out today. The proprietors affirm that they are unable to agree to the demands to include the time of going to and returning from the shafts in the wage period nor can they make expensive alterations in declining the mines because the owners claim Germany would, thereby, lose her position in the international competitive field both in coal itself and in manufactures by the use of coal. Some proprietors aver that the economic equilibrium is so delicate that the whole industrial fabric of Germany can be disarranged by charging more for coal than heretofore, while others maintain that Germany could not in the case of a change in the price compete with the Belgian and French producers. Only a week's supply of coal, it is further asserted, is in store.

The matter is causing a tremendous discussion in the press, most of the newspapers of Cologne, Frankfurt, Duesseldorff and Essen, setting forth the mine owners' position, while the Socialist periodical proclaims that a social war is beginning.

POLICE CLEAR UP MYSTERY.

Men Confess They Robbed Car of Silver Bullion.

East, St. Louis, Ill., Jan. 11.—I nthe arrest and confession of William Burroughs, George Rodgers and William Majors, the police have cleared up the mystery surrounding the robbery of a bonded car, in the terminal yards of $24,800 worth of silver bullion consigned from the El Paso Smelting company to the United States mint at Philadelphia, more than a month ago. The men are teamsters.

Part of this bullion was recovered the day after the theft, but the remainder is now supposed to have been used in a lead foundry, having been sold at one cent a pound, in mistake for baser metal.

Fel Bergaum, a junk dealer in St. Louis, has been arrested charged with receiving stolen property. Efforts are now being made to trace the bullion which the junk dealer says he handled for lead.

Heavy Snow at Knoxville.

Knoxville, Tenn., Jan. 11.—This city is experiencing its most extended snow for many years. Last Thursday night snow fell heavily and it has continued at intervals since. This morning about 3 inches covered the ground, with prospects of additional snow tonight. Sleighing is quite general, for the first time in years.

Thirty-Two New Indictments.

Pueblo, Colo., Jan. 11.—The grand jury has returned 32 new indictments, all charging fraud in connection with the recent election. Several of the indictments are against persons already arrested. The remainder are against persons not indicted heretofore. The papers have not yet been served.

LARGE ATTENDANCE IS ANTICIPATED

At the Approaching Bible Conference and Chautauqua.

INQUIRIES FROM EVERYWHERE

Secretary Bayer Says They Come by the Dozen Every Day, and Are From Parties All Over the United States Who Desire to Attend.

As the time approaches, indications become still stronger that the coming session of the Florida Winter Bible Conference, the Christian Workers' Institute and the Gainesville Chautauqua, which will be held in this city for about six weeks, beginning with the convention of the Bible Conference on February 5, will be a glorious success.

Secretary Ferdinand Bayer states that he is receiving by every mail dozens of letters inquiring for particulars regarding boarding houses, rates, etc. These inquiries come from every section of the United States, and in a great many instances are in response to the thousands of pamphlets advertising Gainesville and these attractions, which have been sent out by the Conference advertising committee. This pamphlet comprised thirty-six pages, illustrated, and contains several views and street scenes of Gainesville. The committee very thoughtfully sent out this pamphlet, with other printed matter, to more than two hundred religious papers throughout the United States, a great many of which have responded by giving the attractions liberal mention. Advertising matter has also been sent to the various publications and ministers throughout the State, with a request to advertise the Conference in every way possible, and good results are anticipated from these sources.

"From present indications we are going to have an unprecedented crowd," remarked Secretary Bayer Wednesday. "I am receiving dozens of letters every day from every section of the country asking for general particulars, and our stenographer is kept busy answering these communications. Last year was a big one for these attractions, but I anticipate that the attendance at the coming session will increase in the neighborhood of forty per cent."

"Go Away—Let Me Sleep."

Frank Hall—the irrepressible Frank—formerly of this city, but now the successful traveling representative of Joyner, Witz & Co., the largest hat dealers in the United States, is at the Brown House. Mr. Hall is of a "Sunny Jim" disposition, is always happy, and as a result his friends are always glad to see him.

A good story is related at the expense of Frank, which he does not deny is the truth. A few cold mornings ago Mr. Hall was stopping in Jasper. On the preceding night he paid his bill and, as traveling men are accustomed to do, told the landlord that he desired to take the 5 o'clock train for Lake City, and left orders to be called in plenty of time. The order was recorded.

At 4:30 o'clock in the morning, when the cold north wind was whistling around the corner and the ice on the outside was an inch thick, the bell boy knocked upon Mr. Hall's door—first gently, then with a hatchet which he carried for the purpose.

"Say, boy, it's time to git up. De train am a comin' in a ha'f 'our."

"Ain't there another train that leaves this town about this time tomorrow morning?" drawled Mr. Hall.

"Dere sho' is," was the reply.

"Well, go away let me sleep," was the prompt command, when the boy retired, Frank got his rest—and the "house" suffered the expense of a layover.

Meeting Cemetery Association.

The Cemetery Association will hold a meeting at the home of Mrs. R. Wilson this afternoon at 3 o'clock. All persons who have contributed to the cemetery are considered members of the association, and it is hoped that there will be a good attendance.

The election of officers for the ensuing term will be held at this meeting. MRS. H. H. MCCREARY, Pres.

MOZLEY'S LEMON ELIXIR

REGULATES THE
LIVER,
STOMACH,
BOWELS,
KIDNEYS,

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

Shipwrecked Sailors Reach Port.

New York, Jan. 11.—Seven survivors of the ill-fated Norwegian ship Marpesia, which was wrecked at sea on Christmas day by an explosion of naphtha, resulting in the death of 11 members of her crew, arrived here on the steamer Trinidad from Bermuda. They had been rescueed by the Danish steamer Gallia, which happened by just at the moment when the Marpesia was blown into a shapeless mass and the seven who survived the shock were taken from the sea, where they had sought the only refuge that remained to them after the explosion.

Did Not Dine With Booker.

Birmingham, Ala., Jan. 11.—The report printed in New York that members of the Birmingham delegation to invite the president to visit this city fraternized and dined with Booker T. Washington, on the train enroute, is emphatically denied by every member of the party who has returned to Birmingham. Mayor Drennen and the heads of the commercial organizations have all given out interviews in which they strenuously deny the printed accounts of the matter on the train to Washington, D. C.

Bought Chamberlain's Cough Remedy and Sent it to Friends.

Mr. F. W. J. Fletcher, a druggist in Victoria, Australia, says: "A customer of mine was so pleased with Chamberlain's Cough Remedy, which she had used for her children when suffering from colds and croup, that during a fortnight's time she obtained at my shop, nine bottles, which she sent to her friends in different parts of the State, telling them how much good it had done and advised them to give it a trial." For sale by all druggists.

Georgia Law Declared Void.

Washington, Jan. 11.—The supreme court of the United States has held as void the Georgia law making the initial carrier liable in cases of damages in freight shipments even though it occurs outside the state. The opinion was delivered by Justice Peckham, in the case of the Central of Georgia Railroad company vs. Murphy. The damage alleged in this case, amounting to $434, occurred to a car load of grapes shipped from Barnesville, Ga., to Omaha, Neb., the Georgia road being the road in which they were delivered. Murphy brought suit under the state law.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasantest remedy for coughs and colds I have ever used." 25c, 50c and $1.00. Sold by W. M. Johnson.

Big Fire at Olathe, Kans.

Olathe, Kans., Jan. 11.—Fire broke out at 1:45 this morning and destroyed the business buildings on the east side of the public square, including the telephone and telegraph office, and the postoffice. Efforts of the citizens to arrest the flames were futile and an urgent call for help was sent to Kansas City, 20 miles distant. A Santa Fe special train brought firemen and engines from Kanasas City, who did good service. The loss is estimated at $150,000. No casualties are reported.

A Grim Tragedy

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oaklandon, Ind., writes: "My wife had the consumption, three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One nose relieves. Guaranteed at 50c and $1,00 by all druggists. Trial bottles free.

Widow Marcum Wins Suit.

Winchester, Ky., Jan. 11.—The jury in the case of Mrs. Amelia Marcum, who sued Judge James Hargis, ex-State Senator Alex Hargis, Sheriff Ed Callahan, of Breathitt county, and Attorney Fulton French, for $100,000, for alleged conspiracy with Curtis Jett and Thomas White to slay her husband, James B. Marcum, has returned a verdict for $8,000 against James Hargis and Sheriff Callahan and found for the defendants in the case of French and Alex Hargis.

The Strike at Fall River.

Fall River, Mass., Jan. 11.—The cotton mills claimed to have made large gains today upon the beginning of the 25th week of the strike, but labor leaders say that all gains have been offset by losses from among those who previously had gone in. Thirty-five weavers of the Bourne mills came out again today, saying that they could not make living wages. There is no change in the general situation. The labor men express a willingness to arbitrate, but the manufacturers demand unqualified surrender.

Sickening Shivering Fits

Of ague and malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after effects. E. S. Mundy of Henrietta, Tex., writes: "My brother was very low with malaria fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists. Price 50c, guaranteed.

Serenity of Temper.

One sign of mental health is serenity of temper and a self control that enables us to bear with equanimity and unruffled temper the petty trials and jars of life, especially those arising from contact with scolding, irascible, irritating folk. It is well to remember at such times that these unfortunates are their own worst enemies, and a cultivation of the art of not hearing will help us very much. It is a very useful art all through life and well worth some trouble to acquire.

Greatly in Demand.

Nothing is more in demand than a medicine which meets modern requirements for a blood system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At all druggists, 25c, guaranteed.

RUSH—DOKE.

ge of Two Popular Young People at Judson Recently.

January 11.—The resi- C. Doke was the scene of a ni marriage Tuesday evening . A. Rush led to hymeneal's al- s Vella Doke, the accomplished ter of Mr. and Mrs. C. C. Doke. ome had been beautifully and ar- ally decorated for the occasion, a perfect bower of roses, holly other evergreens. Long before e appointed hour the parlor was crowded to its fullest capacity. Prof. Daymond presided at the piano and promptly at 7:30 o'clock the bridal party entered, marching to the sweet strains of the "Wedding Bell March." The party was led by Miss Frankie Sheffield and Pamna Doke, the candle bearers, and Herbert Weeks and Miss Donnie Doke, followed by Louis Abbott and Miss Annie Doke and little Emma Yancey and Catherine Sheffield, the flower girls, who spread sweet flowers in front of the bride and groom.

The picture was a pleasing one—the background of evergreens and the bright young faces and beautiful dresses upon which the light cast its brilliant rays, all conspired to form a picture long to be remembered by those who were present.

The ceremony was performed by Rev. S. W. Sheffield, former pastor of the church here.

After the ceremony the bridal party, together with the family and friends, repaired to the home of the bride's parents. After congratulations had been showered upon the happy pair, a sumptuous supper was spread.

The bride is an accomplished young lady, and Mr. Rush is to be congratulated upon his success in securing such a prize.

The groom is a prosperous orange grower of Port Orange.

They were the recipients of many useful and costly presents.

H. M. Sherrouse Constructing Fine Mill—Contemplated Improvements.

The hustling town of Micanopy appears to be enjoying her proportion of the prosperity which is now evident in every section of the county.

Among the improvements at Micanopy which is probably of the greatest magnitude is the erection of the big veneering mill of H. M. Sherrouse, who has almost completed the factory, and expects to have the plant in operation within the next three weeks. Mr. Sherrouse has for several years conducted a small mill at Micanopy, which appeared to meet the demand; but realizing the rapidly increasing production of fruit and vegetables, he felt that his present plant would not be sufficient, hence with commendable energy he is constructing a new and much larger mill, which will be equipped with all modern machinery for the manufacture of crates, boxes and baskets.

With the erection of the proposed ice plant by the Diamond Ice Company of this city and other improvements which are contemplated, Micanopy will soon enjoy a position in the front rank of commerce and manufacture in this section.

A Fine Catch.

Mr. Whitemore of Bowling Green, Ky., who is known among his friends at the Home as "the dead game sport," went fishing to Prairie Creek with C. D. Schafer yesterday and retained his reputation as far as the "sport" was concerned, although Mr. Schafer was not far behind him.

These deciples of Isaac Walton, succeeded, after a few hours' sport, in landing about seventy-five pounds of fine fish of all varieties, including trout, pickerel, bream, perch, etc. The load was so heavy that it was a difficult matter to lift it. The fish were taken to the Home, where the guests will feast on members of the finny tribe to their hearts' content.

Mr. Whitemore is delighted with his trip, and says he believes Florida has the finest fishing grounds in the United States.

Rev. Carlisle P. B. Martin, L. L. D., Of Waverley, Texas, writes: "Of a morning, when first arising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." 25, 50c and $1.00. Sold by W. M. Johnson.

NAGGING PAINS

Newport News, Va., July 22, 1903.
Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism.
613 32d St. CHAS. E. GILDERSLERVE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the sharp, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy. Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

New Store at Rochelle.

E. F. Zetrouer, who was born and reared in this county, but for the past two or three years residing at Tampa, where he has been engaged in the practice of law, has decided to return to his old home and reside here permanently.

It is announced that Mr. Zetrouer will open a general store at Rochelle, and inasmuch as he is quite popular among the people of that section, it is needless to add that he will enjoy a fine trade.

Keep your eye on Rochelle. The progressive village will soon have three up-to-date general stores, and it is safe to venture that within the next five or six years, at the present rate, it will become one of the most important towns in the county, possibly ranking fourth. Business men appreciate the advantageous location of Rochelle, and are not slow in taking advantage of it from a commercial standpoint.

New Play Mazpah" a Success.

San Francisco, Jan. 11.—A crowded house greeted the initial performance of "Mazpah" at the Majestic last night, the poetical drama of Ella Wheeler Wilcox and Lunscumbe Searelle. The play proved quite a success and the criticism in all quarters was favorable, the production being generally accepted as highly meritorious on the part of the authors.

Gamblers on Boat Held Up.

Decatur, Ala., Jan. 11.—Armed with winchesters, a brace of revolvers and with masks covering their faces, two unknown men late Saturday night robbed six men who were engaged in playing poker on a house boat on the Tennessee river, 30 miles above here. About $1,000 in diamonds and jewelry and $400 in cash was secured. The robbers escaped into the mountains and were followed. They are believed to be moonshiners.

Postmaster Has Disappeared.

Douglas, Ga., Jan. 11.—The little town of Nichols, Ga., on the Atlantic and Birmingham railroad, 12 miles east of Douglas, has a sensation in the mysterious disappearance of its postmaster, Gilbert Meeks, who was last seen at this place three days ago. It is alleged that his office has been checked up and that he is found to be $2,300 short in his money order department accounts.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland Block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The Pound of Flesh Story.

Eleven different versions of the pound of flesh story exist in the early literature of Europe, none of which is founded on a historical basis, save one related by the biographer of Pope Sixtus V. The original tale runs as follows: Simon Cenada, a Jew, enters into a wager with Sechi, a Christian, staking a pound of his flesh against a large sum of money of the Christian. The Jew loses the wager, and Sechi insists on his forfeit. The case is referred to the governor of the city, who in turn places it before the pope, who condemns both to lifelong imprisonment, from which they are finally released on the payment of a heavy fine. An Italian, Giovanni Florentino, in the sixteenth century was the first to change the roles of the Jew and Christian, and in this altered form the Bard of Avon found the story. The poet himself could scarcely have known any Jews personally, since they were expelled from England 300 years before his time and were not readmitted until after his death. From stage presentations, from descriptions in books or from popular reports, which were always derogatory to the Jewish character, the poet derived his knowledge of the Jew.—Menorah.

Cured Lumbago.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniament, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former soldiers." 25c, 50c and $1. Sold by W. M. Johnson.

Pardonable Ignorance.

A young American woman, an author, while seeing Rome for the first time was anxious to include a visit to the tomb of Caesar. Meeting a citizen on the street she inquired, in her best Italian, the location of the tomb. The man looked greatly embarrassed. "I am desolated, signorina," he apologized, speaking in excellent English. "I do not know. Caesar has been dead so long!"

Sorry He Spoke.

Boarder (warmly)—Oh, I know every one of the tricks of your trade. Do you think I have lived in boarding houses twenty years for nothing? Landlady (frigidly)—I shouldn't be at all surprised.

Her Age.

Tom—Did Maud tell you the truth when you asked her age? Dick—Yes. Tom—What did she say? Dick—She said it was none of my business.

No Benefit No Cost.

If you are weak and worn-out—if you are nervous, irritable, have headache, backache, neuralgia, or periodical pains, it is because you have exhausted your nerve force.

If you cannot sleep, and are thus robbed of the rest which nature demands for the restoration of mental and physical vigor, your system will continue to run down.

Dr. Miles' Nervine restores vitality by soothing and strengthening the nervous system, thus inducing refreshing sleep, and imparting strength and vigor to all the organs of the body.

There are very few instances where Nervine will not benefit; if not, your druggist will refund the money.

"When I began taking Dr. Miles' Nervine I had a very sour stomach, with pain extending far around on my left side—attended with extreme nervousness. I dreaded to have night come, as it was impossible for me to sleep. Everything I ate distressed me. Before I had finished one bottle of Nervine there was such a change that my husband bought six more, which has restored me to health."
MRS. JENNIE SIMMS,
Rushville, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Many papers think it peculiar because President Sam of Hayti has been sentenced to the penitentiary while he is enjoying ease and wealth in foreign lands. We have sentenced some of our postoffice thieves to the same place and they are doing the same as Mr. Sam.

THE PARDONING BOARD.

Referring to the exercise of the pardoning power by the governor and his cabinet, The Tampa Tribune says:

"For some time past The Metropolis, The Tampa Tribune, The Punta Gorda Herald and various other papers throughout Florida, fearful of the result of the reckless actions of the State Pardoning Board in extending unmerited clemency to convicted criminals, have advocated the abolition of the pardoning power.

"This, it is true, is a grave proposition to advance, and one that this paper has supported only because it feared that the frequency with which the power is abused in the State would result in a total loss of respect for law and order, and reduce the State to a condition of practical anarchy, when person and property would be without a safeguard, and the government would be a farce.

"It is doubtful if the people of the State could be brought to adopt such radical steps before the anticipated evil results would actually come to pass, so The Tribune suggests that, instead of the abolition of the pardoning power, it should be made the duty of the prosecuting attorneys to appear before the State Pardoning Board whenever a petition for commutation of sentence or pardon is made, and present to the board, in open session, and in the presence of the prisoner and his counsel, the evidence of the State which resulted in the conviction of the accused, and argue the same to the board, as to the trial jury. The counsel for the petitioner should be required to furnish a written statement of the grounds upon which the pardon or commutation will be asked, to the State's attorney a reasonable length of time before arguing the petition before the board, and also a copy to the party against whom the crime was committed; or, in case of murder, to the next kin of the deceased. And, in addition, a wilful misstatement to the Pardoning Board should be deemed perjury and treated as such.

"As pointed out Tuesday morning in The Tribune, a great evil in cases before the Pardoning Board is that usually only one side is presented, and that not always truthfully. It should be compulsory that the State's side should be heard, and the hearing of appeals should be public, though, of course, the board should conduct its deliberations in private.

"To establish many iron-clad rules of the Pardoning Board would be to defeat the ends of executive clemency, and to abolish the power entirely is fraught with the danger of cruel injustice, and such a suggestion would receive only condemnation, but for the fact that it may be impelled by stern necessity, to prevent the intolerable abuse of a sacred power and all the evils of anarchy. Before proceeding to this step, which, perhaps, we must do some day, every precaution should be taken to prevent the evils complained of now."

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O.

FLORIDA LIBRARY ASSOCIATION.

The Florida Library Association met with the State Teachers' Association, and held a very profitable session. Several new members were secured and much interest manifested in the subject of libraries. Miss Carolyn Palmer, librarian of Stetson University, was elected prasident; Mr. Carn of Ocala, vice-president, and W. W. Hall of Miami, secretary and treasurer.

The association is composed of men and women representing the foremost educational institutions of the State and the most advanced and progressive culture.

Almost every State in the Union has its library association, librarians being its principal constituents; but Florida is unique in that its association is almost altogether composed of school teachers—only one regularly employed librarian being in it. Brother and sister librarians, this ought not to be. Small and insignificant must be the Florida town that does not boast of a library and presumably that library has a librarian, but they have left to the school teachers the honor of inaugurating in the State one of the most forceful movements of the present day.

Prof. McBeath has generously offered space in The Exponent for a library department, which will be filled from time to time with matter relating to this great movement, and contributions are solicited from those interested in the subject. Librarians are especially urged to send in any thought, suggestion, or experience which has proven valuable to them and may help others, and above all else to join the association. The president or any of the officers will gladly give necessary information or send copies of the constitution to those desiring them.

Washington, D. C., has a very rigid smoke law which prevents the use of soft coal. This law has heretofore been a dead letter, but President Roosevelt merely gave the word and had it rigidly enforced, and the smoke nuisance thereby abated. If Mr. Roosevelt would only make up his mind to go after the trusts in this manner there would be "something doing."

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

MANY NEW HOUSES NOW CONTEMPLATED

Several Fine Residences Will be Erected Here Soon.

THE BOOM A STEADY ONE

Realizing the Coming Importance of Gainesville as a City, and the Present Demand for Houses, Many Property Holders are Anxious to Build.

The building boom, which has been noticeable in Gainesville for the past year, continues with usual activity, and it is anticipated by those who are in a position to know that activity in the erection of residences and business houses will continue for an indefinite period. Gainesville is growing like the mushroom, and it is a steady and substantial growth at that.

Manager Voyle of the Abstract and Realty Company, who also conducts a general rental business, stated Wednesday to a Sun reporter that never in the history of Gainesville have houses been so scarce. "We used to say that 'desirable houses were scarce,'" he remarked, "but now I can say with all the grace in the world that 'any kind of an old house is scarce.'
as we have demands for houses of all classes which we cannot fill."

Among the latest contracts for residences are the following:

The material has been placed upon the ground for the erection of a handsome two-story home by W. B. Phifer, East Seminary street.

Miss Eva Haile will erect a neat cottage on East Orange street. The cottage will be located on the same spot as the cottage occupied by Dr. and Mrs. Giddings, which was destroyed by fire about five years ago. The location is exceptionally fine, and there is no doubt but that the home will be in demand.

J. M. Haile expects to begin at once the erection of a handsome residence on West Main street, N., adjoining his own beautiful home. Order has been placed for the material, and as soon as this is delivered work will begin.

Mr. Dale, who recently purchased a handsome lot on East Main street, N., one of the handsomest residence streets in the South, proposes to begin at an early date upon a modern home. Mr. Dale, who came from Ocala to accept a position with the Dutton Phosphate Company, married a Gainesville young lady. He is consequently wedded to the city, and likes it so well that he decided to establish a home of his own, which will be a credit to the owner and the city.

The Eddins Manufacturing Company, through E. E. Voyle, has secured the contract for erecting a handsome two-story residence for Mrs. H. T. McCreary on West Main street, N., immediately south of the home of Mrs. Foster. It is understood that work on this home will begin at once, and within the next six weeks it will be ready for occupancy. Mrs. McCreary also owns a nice home on East Main street, N.

Material for the erection of the elegant new Episcopal church is now being received, and it is expected that work will begin in a short time, the plans and specifications having been received and the contract let. It was at first decided to use the McCarnoll stone, but later the building committee deemed it best and most economical in the end to employ brick. A first quality Georgia brick, which is among the finest in the world, will be used, and several carloads of this material have already been received from Macon.

W. L. Hill has sold his interest in the Cline residence, South Arredondo street, to Mrs. Nellie Jackson. It is understood that Mrs. Jackson will materially improve the property.

There are no less than twenty residences, of all sizes, dimensions and prices, in contemplation for the next few weeks, which will keep the contractors busy.

Gainesville is in the midst of a boom which is going to prove profitable and lasting and beneficial.

Imperfect Indigestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

Judson Jottings

Judson, Jan. 11.—I. N. Woods, our merchant and postmaster, went to Montbrook Sunday, where he and Miss Ethel Willis were joined together by the holy bonds of matrimony. They returned today. We wish them a long and happy life. Mr. Woods' father, Leroy Woods, is very ill.

Mrs. L. R. Weeks is improving. She was quite sick last week. Her relatives and friends will rejoice at the news of her taking a turn to get well.

John L. Carter, the efficient clerk of R. S. Tucker, has moved back to his farm, about six miles from here.

Homer Love is shipping his cottonseed. He is contemplating moving his mill from here to the new railroad at Trenton.

A Friend in Need.

Do you know of anyone suffering with consumption? Then tell them without delay that Dr. Boschee's German Syrup will cure them—and you will be a friend in need. German Syrup is a reliable specific for the cure of consumption. It has been making marvelous cures of consumption throughout the world for forty years. Croup, coughs, colds, bronchitis and all throat and lung troubles are speedily cured by German Syrup. Trial bottle, 25c. Big bottle, 75c. At W. M. Johnson's.

Carload of Lettuce.

A solid carload of lettuce was consigned from various growers in this section to New York via the Seaboard Air Line Wednesday night.

The Seaboard is now operating a daily refrigerator car service, which is a great convenience to the growers of this section, and is appreciated.

Gospel

It is gospel truth to say that no DISEASES such as rheumatism, neuralgia, biliousness, colic, cold, sore throat, backache, boils, bowel troubles, skin eruptions, and all those caused by local imflammation, can be so quickly, safely and surely cured, as by the use of HAMLINS WIZARD OIL.

It gets right down in, around the nerves and blood vessels of the affected tissues, where the trouble is, and gently soothes and coaxes them back to health.

For all pain, chronic and acute, it is a remarkable remedy, and has no equal in safety and effectiveness in the medical world. Price 50c and $1.00. Fully guaranteed.

SOLDIER KILLED IN PHILLIPINES

Another Engagement Between Troops and Refractory Moros.

Manila, Jan. 11.—In an engagement which took place on Jan. 8, with refractory Moros on the island of Jolo, Lieutenant James J. Jewell and one private of the Fourteenth United States cavalry were killed, and Second Lieutenant Roy W. Ashbrook, of the Seventeenth United States infantry, Captan Halstead Dorey, of the Fourth nfantry; Second Leutenant R. C. Richardson, of the Fourteenth United States cavalry, and three privates, were wounded.

The action was an incident in connection with the capture of a fort held by the Moro outlaws, which James Scott, governor of the island, had attempted to secure by peaceful means. The peaceful methods were mistaken by the surrounding Moros and the trouble brewing necessitated stronger action. The Moro leader has been killed, and the fort has been destroyed. The American troops were assisted by the gunboat Quiros in command of Lieutenant Walker.

Workmen Share Profits.

Valdosta, Ga., Jan. 11.—The Henderson-Cranford Buggy company, of Valdosta, one of the largest manufacturing concerns in this section, operates its factory on the profit-sharing plan, giving a certain per cent of the net profits to its employes at the end of each year. The distribution of the profits for last year was made among the employes Monday, the sum of $1,000 being given to them. All of the men who have been with the company for one year or longer shared in the profits in proportion to the amount of the wages which they make. The company has done a remarkably successful business for the year just passed.

Spoiled Her Beauty.

Harriet Howard of 209 W. 35th St., New York, at one time had her beauty spoiled with skin trouble. ISLAND GROVE NUPTIALS.

Marriages of the Misses Cail Occurred Within Few Days of Each Other.

Island Grove, Jan. 11.—Married, at the residence of and by Justice A. Morrison, on January 2nd, 1905, Mr. Chas. Casagne of Baltimore, Ind., and Miss Omera Cail of Island Grove. No cards.

On January 8th, 1905, at the residence of and by Justice A. Morrison, Mr. James G. Mordacal of Savannah, Ga., and Miss Ollie Cail.

The bride was attired in a neat suit of grey merino, with hat and gloves to match, and wore a white silk scarf around her neck and a white sash of ribbon around her waist. The groom was neatly attired in a suit of black and presented a very genteel appearance.

Their friends extend to them their warmest congratulations for their future happiness and success in life, and may they never want for friends should adverse fortune frown, and rejoice with them now as life's vale is strewn with flowers fresh.

Herman Westphall, a prominent young gentleman of Kansas City, has been visiting his brother, A. M. Westphall of Island Grove, and seems charmed with the climate of Florida so much that he is contemplating a return to the State at an early day to make it his home. He has made a pleasant impression upon the people and a warm welcome awaits his return. He made many warm friends at Island Grove who seemed to regret his departure as they gathered at the home to take leave of him.

A Sudden Death.

The death of Mrs. Minnie Purcell, wife of Rev. I. P. Purcell, formerly pastor of the C. M. E. Church in this city, at her home, 702 North Sixth street, removes from our midst one of the most sainted women of the city. Mrs. Purcell's death occurred at 1:15 a. m. Sunday morning, she having had a stroke of paralysis at 10 p. m., only surviving it about three hours. Medical aid was immediately summoned and all that was possible was done, but of no avail.

Mrs. Purcell was a Christian lady and her Christian influence was felt throughout the city. The funeral of the deceased was held at St. Paul C. M. E. Church at 2 p. m. Tuesday, and was attended by a large concourse of relatives and friends. She leaves a husband, four daughters, two sons, one of whom is only seven years old, and a host of friends to mourn her loss. Her funeral was conducted by Rev. J. Chavas, present pastor of the church, aided by most all of the colored ministers of the city.

The relatives of the deceased desire to thank their many friends in the city, both white and colored, who have rendered them so much aid and assistance since the death of their beloved wife and mother. A RELATIVE.

Do Not Suppress a Cough.

When you have a cough do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and that disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructed the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by all druggists.

Live Stock Men In Session.

Denver, Jan. 11.—With 1,000 delegates in attendance the annual convention of the National Livestock association was called to order today by President Frank S. Hagenbarth. The convention then took up the question of reorganization and was busily engaged with it for several hours. In the afternoon no session of the Livestock association was held, the hall being turned over to the National Wool Growers' association, and a meeting of the cattle men on the range question.

Found a Cure for Indigestion.

I use Chamberlain's Stomach and Liver Tablets for indigestion and find that they suit my case better than any dyspepsia remedy I have ever tried and I have used many different remedies. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now.—GEO. W. ENORY, Rock Mills, Ala. For sale by all druggists.

NOTICE OF INCORPORATION.

Notice is hereby given that we, the undersigned, intend to apply to the Governor of the State of Florida for Letters Patent to be issued to The Gainesville Company, a proposed corporation under the Laws of the State of Florida, of which company the following shall be the Articles of Incorporation:

This notice is given pursuant to the requirements of the State of Florida, and the Articles of Incorporation have been filed with the Secretary of State, and are given below.

W. R. THOMAS,
W. M. DALE,
E. E. VOYLE.

ARTICLE I.

The name of the corporation shall be THE GAINESVILLE COMPANY, and its principal place of business shall be in Gainesville, Alachua county, Florida, but it may establish offices and agencies at other places within the State of Florida, the United States and foreign countries.

ARTICLE II.

The general nature of the business to be transacted by the corporation is to deal in, buy and sell, mortgage and lease real estate and personal property, subdivide and lay out tracts or land and improve the same, conduct a naval stores business, lay out and operate sewerage, build and erect houses and buildings of every description, collect rents and act as agent for parties owning land or property, advance and loan money on lands or personal property, subscribe for, purchase, receive, own, hold, sell and dispose of stocks, shares, bonds, securities or obligations of other corporations wherever located, buy and sell, lease, own and use machinery and appliances, supplies and personal property of what ever nature necessary for the carrying on of the business, and this corporation shall have power generally to do and perform, have, hold, acquire and enjoy all other property, powers and things as shall be incident, necessary or expedient for the conducting the necessary operation of the business, and generally to be vested and have all the powers granted, or which may be hereinafter granted to corporations for profit under the Laws of the State of Florida.

ARTICLE III.

The amount of the capital stock of said company shall be Fifty Thousand Dollars, divided into five hundred shares, each of the par value of One Hundred Dollars, to be paid in as follows: Five thousand dollars in cash, and the balance to remain in the treasury to be disposed of in such manner as the directors may designate.

ARTICLE IV.

The term for which this corporation is to exist is ninety-nine years.

ARTICLE V.

The business of this corporation shall be conducted by a president, a vice-president, a secretary, a treasurer and a board of three directors. The office of secretary and treasurer may be held by the same person. The board of directors shall be elected by the stockholders, at the meeting to be held on the first Monday in March, 1905, and annually thereafter. The board of directors shall elect the officers of the company. The president and vice-president shall be elected from among the board of directors. Until the first election and until their successors shall be qualified, the following officers and directors shall conduct the business of the company: W. R. Thomas, President; W. M. Dale, Vice-President, E. E. Voyle, Secretary and Treasurer, and W. R. Thomas, W. M. Dale and E. E. Voyle shall constitute the first board of directors.

ARTICLE VI.

The highest indebtedness or liability to which this corporation can at any time subject itself is Fifty Thousand Dollars.

ARTICLE VII.

The names and residences of the incorporators of said corporation and the subscribers of stock thereof, with the number of shares subscribed for by each, are as follows:

W. R. Thomas, Gainesville, Florida, 30 shares.

W. M. Dale, Gainesville, Florida, 10 shares.

E. E. Voyle, Gainesville, Florida, 10 shares.

State of Florida,
Alachua County.

Before me personally appeared W. R. Thomas, W. M. Dale and E. E. Voyle, to me well known, and known to me to be the persons who subscribed the foregoing, and severally acknowledged before me that they subscribed the same.

In witness whereof I have hereunto set my hand and affixed my official seal this 12th day of December, A. D. 1904, in said Alachua county.

NEWS TERSELY TOLD.

Alva Adams was inaugurated governor of Colorado today.

The treaty of peace and amity between Chile and Bolivia has been approved by the chamber of deputies.

President Harry C. Pulliam, of the National League, who is threatened with pneumonia, was reported much better today.

The steamer sailing today from San Francisco in addition to 100 saloon and 200 steerage passengers, will carry $2,500,000 gold for Japan.

Dr. Alonzo Sylvester, Emperor William's American dentist, committed suicide here today. He shot himself through the head in his bed room.

Charles Mahoney, one of the oldest citizens of White Plains, N. Y., was killed near the railroad station last night by the "Golden Bridge express."

While leaving Venice the Austrian steamer Federica, Captain Hreglich, from New Orleans, came in collision with the Italian steamer Rhone and sank her.

Fire destroyed the residence of Bert Ong, at Charleston, W. Va., his 3-year-old daughter being burned to death, and Ong was fatally burned in an attempt at rescue.

The venezuelan government has given out a denial of the reports circulated in Europe that the complications between the United States and Venezuela is imminent.

Samuel L. Clemens (Mark Twain), who has been confined to his bed with acute bronchitis for three weeks at his new home in Fifth avenue, New York, is reported to be improving.

O. F. Cawthorne, capitalist, of Mobile, Ala., announced today that he will erect a $250,000 modern hotel building at the corner of St. Francis and Conception streets, in the heart of Mobile.

The Tennessee Democratic legislative caucus yesterday nominated W. B. Bate to succeed himself as United States senator from Tennessee. The Republicans will vote for Congressman W. P. Brownlow.

Van McDaniel, the young son of E. J. McDaniel, of Albany, Ga., was shot in the eye by a young companion, the weapon used being a parlor rifle. The shooting was accidental. The boy will lose his eyesight.

As a result of his 69 days' fast James Lawrence, of Newcastle, Pa., has become demented. He became so violent last night that it required three strong men to restrain him. The physicians declare his case hopeless.

Recorder Lazarus, in Bayonne, N. Y., in paroling John McInerney, has charged him with beating his wife, and he fully agreed with the advocates of the whipping post for wife-beaters because jail punishment was not fitting and made the family suffer more than the man.

Both houses of the legislature of Montana today will ballot for a United States senator to succeed Paris Gibson, junior senator, and tomorrow on joint ballot the assembly will vote on the subject. The Republicans have a majority of two in the house and six in the senate.

Iowa P. Husted, of Tracy, Minn., shot and seriously wounded Mrs. C. L. Lindsley and her daughter, Eva, and then killed himself. Mr. Lindsley, who witnessed the tragedy, narrowly escaped being shot. Husted, who boarded with the Lindsleys, quarreled with Mrs. Lindsley about the daughter.

Tulip and Poppy Dangerous Flowers

The florist held a tulip in his hand. "Some people claim that a tulip has no smell," he said. "As a matter of fact, it has a dangerous smell. Take a tulip of a deep crimson color and inhale it with profound inspiration, and it will be apt to make you light headed. You will say and do queer things—dance, sing, fight, swear and so on. For two hours you will cut up in this way. Afterward you will be depressed.

"The poppy is another dangerous flower. A young woman of a nervous temperament, if she lingers among a bed of poppies, will grow drowsy, the same as if she had smoked a pipe or two of opium. In Asia Minor, where the opium manufacturers cultivate vast fields of poppies, tourists inspecting the beautiful flowers often become altogether incapacitated. They get so sleepy they can hardly talk. They reel in their gait. In some cases they have to be put to bed."—Boston Advertiser.

MAGIC IN ZUNI TRIBE.

Priest Apparently Lifted a Jug of Water With a Feather.

"The most startling feat I ever saw," said a man who had made a study of Indians in various parts of the United States for his own edification, "was performed by the priests of the Zuni tribe in Arizona, or, as they were called, 'The Ancients of Creation.' They seat themselves in a circle on the clay floor around a jar that will hold perhaps a gallon, an ancient and sacred earthen vessel, which is filled with water. The chief priest carries in his hand two ordinary eagle feathers, which are tied together at the quill ends so that they make a fork. Behind the circle of the priests are other members of the tribe and the musicians with their drums and gourds, who join in the chants with emotion.

"The incantations continue for several hours, and when the participants and spectators are brought up to a proper pitch of excitement the priest dips the feather tips into the water, lifts the jar with them and holds it suspended for a minute or two at a height level with his face or breast. Then he lowers it slowly to the ground. This feat is repeated several times during the performance. Apparently there is nothing in the hands of the priest but the feathers, and they appear to be inserted into the mouth of the jar only two or three inches. Of course there is some trick about it, but I was never able to discover it."—Seattle Post-Intelligencer.

BONE STRUCTURE.

The Compact and the Spongy Kind and Their Strength.

Bone is of two kinds, compact and spongy. As the result of careful experiments it has been shown that compact bone is twice as strong as oak, considered simply as building material. In the shaft of a long bone it is in reality much stronger than this, for it is arranged on the advantageous principle of the hollow pillar, which gives the fullest resisting power with the least possible expenditure of substance.

The delicate layers and bars of spongy bone are arranged on the principle of an arch, enabling very considerable pressures to be resisted. It was found that a cubic inch of this tissue taken from the lower end of the thigh bone and weighing only fifty-four grains was quite uninjured by a dead weight of 448 pounds.

The curved bones which roof in the skull are constructed to resist great pressure, while they check the transmission of shocks to the brain. Arranged in the form of a dome, they consist of compact bones, with a spongy layer between. These are known as "tables" of the skull. The outer and inner tables are immensely strong, while the middle table serves as a buffer by which the force of blows is distributed.

HIS APOSTOLIC MAJESTY.

Title of the Emperor of Austria as King of Hungary.

The title of "apostolic majesty" is borne by the emperor of Austria as king of Hungary.

Hungary was ruled by dukes from its conquest by the Magyars to the year 1000, the regal title being assumed first by Vaik, whose education had been intrusted by his father, Geyza, who had married a Christian princess, to Adalbert, bishop of Prague. On succeeding his father Vaik embraced and established Christianity, applied for and received from Pope Sylvester II. the title of "apostolic king," was crowned as Stephen I. and afterward known as St. Stephen.

The title was renewed by Clement XIII. in 1758 and, though abolished in 1848, was reassumed as "apostolic majesty" in 1851 and restricted in 1868 to the Austrian emperor in his character as king of Hungary. The privilege of being preceded by a cross bearer was granted with the original title.—London Standard.

A Royal Catspaw.

Peter the Great particularly delighted in drawing teeth, and he strictly enjoined his servants to send for him when anything of that sort was to be done. One day his favorite valet de chambre seemed very melancholy. The czar asked him what was the matter. "Oh your majesty," said the man, "my wife is suffering the greatest agony from toothache, and she obstinately refuses to have the tooth taken out." "If that is all," said Peter, "we will soon cure it. Take me to her at once." When they arrived the woman declared that she was not suffering at all—there was nothing the matter with her. "That is the way she talks, your majesty," said the valet. "She is suffering tortures."

"Hold her head and hands," said the czar. "I will have it out in a moment." And he instantly pulled out the indicated tooth with great dexterity, amid profuse thanks from the husband. What was Peter's indignation to discover a little later that his valet had used him as an executioner to punish his wife, who had never had an unsound tooth in her head.

Ripley, Tenn., June 1, 1901.

Dr. E. W. Hall, St. Louis Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give your "Texas Wonder" a trial. I have used one bottle, and although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

Yours truly,
W. H. BRYON,
Pastor Baptist Church, Ripley, Tenn.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

NEWS FROM FAR EASTERN CONFLICT

Russian Paper Wants War To Continue Until They Win.

KAISER DECORATES GENERALS

General Nogi Reports Additional Prisers of War to His Government. Japs Destroying Mines in Port Arthur Harbor Put There by Russians.

St. Petersburg, Jan. 11.—The Russ today confirms the Paris Temps report of yesterday that the first division of the third Pacific squadron will leave Lebau at the end of January and will consist of the warships Admiral Senjavon, General Admiral Apraxin, Admiral Oushatoff and Sylis I, the cruiser Vladimar Monomach and several torpedo boat destroyers, and torpedo boats.

In a lengthy review of the military situation the Novoe Vremya urged the immediate reinforcement of Vladivostok, the island of Sakhalin and Kamchatka. The paper says :

"There is little probability of the Russians being caught as unprepared at Vladivostok, as at Port Arthur, but the moral responsibility rests on the government to see that nothing in the way of defensive preparation is overlooked. Sakhalin and Kamchatka are both harder to defend and have a scantier population, but are both rich in mineral and other resources, and are especially inviting to the Japanese for territorial expansion.

Continuing, the Novoe Vremya points out that it is possible to send reinforcements and supplies to Sakhalin and Kamcratka while the ice lasts, independent of sea power, and begs that this should be done at once.

Touching on the general peace talk in the foreign press, the Novoe Vremya summarizes the list of of Russian reverses in the present war, and asks if it is possible to consider the question of peace without substantial Russian victories.

Russian Ships at Port Said.

Port Said, Egypt, Jan. 11.—The division of Russian warships commanded by Rear Admiral Botrovisky which left Suda bay, island of Crete, Sunday, has been sighted heading for this port.

News from Tokio.

Tokio, Jan. 10.—10:30 a. m.—General Nogi reported additional prisoners of war as follows:

Major General Sulkitin and Major General Baile and Rear Admiral Wiren.

The patroled, besides General Stoessels, include Major General Ries, Nadiena, Kostinlow and Rear Admirals Prince Ouktomsky, Gregorovitch and Rosstiliski and Engineer in Chief

They navy department says that the district covered with submarine mines had a radius of 40 miles outside of Port Arthur. It reported the destruction and explosion of 395 of these mines to date.

Ten additional survivors for the hired expedition found were started to clear the entrance to the Port Arthur harbor. They have been transferred to the Japanese.

Decorated By German Emperor.

Berlin, Jan. 11.—Emperor William has conferred on General Stoessels and General Nogi the order of The Pour le Merite in recognition of the bravery of themselves and their troops at Port Arthur. His majesty has third expedition found were started peror to authorize General Stoessels and Nogi to accept the decorations.

Russian Refugees in New York.

New York, Jan. 11.—A number of Russians who left their homes to escape conscription, arrived here today on the steamer Blucher. Nochim Malatzki, aged 34, who left Russia with a party intending to make his home in this country, died suddenly of heart disease during the voyage and was buried at sea. Among the saloon passengers on the Blucher were several German army officers who will go on a cruise in West Indian waters.

WAR CLOUDS OVER BALKANS.

Turkey and Bulgaria May Clash in a Deadly Struggle.

London, Jan. 11.—The active preparations already reported to have been made both in Turkey and Bulgaria for a possible war this year are fully confirmed by a private letter received in London, from a minister accredited to the Balkan courts.

This minister, who has just completed a tour of the Balkan capitals, writes that the Turkish and Bulgarian governments are entirely prepared for eventualities. Large shipments of arms and ammunition have been made and recruits from Asia Minor are arriving at Salonica for service in the Turkish army.

The Bulgarian and Greek bands in Macedonia are increasing daily and are fighting each other and the Turks. This three-cornered guerrilla warfare threatens to assume the bloodiest phase in the spring.

"But," concludes the minister, "as to whether or not there will be real war between Bulgaria and Turkey in the spring, I am not prepared to say. Unless certain powers think the time is opportune, war may be postponed this year as last, but in any event we are a year nearer the inevitable conflict."

WHO WILL GET THE MONEY.

Treasure Found In New York Awaiting Lawful Owner.

New York, Jan. 11.—Who will get the treasure, said to be valued at $150,000, found in an old rusty iron box under the site of the old Macey mansion, in the Bronx, is a question that may put to test some nice and novel points of law.

Contractor Meehan, who recently purchased the land from the estate of the late Theodore F. Macey still holds the box in his possession and does not believe the Macey heirs have any right ful claim to its contents. I have gone far enough into the box, he said, to find that it contains more than $100,000, mostly of gold money, of various countries, and that there is no document or paper in it indicating that it ever belonged to any of the Macey family. If they can establish a claim, they can get it. There is nothing in the box with a date on it later than the civil war.

CHEAP RATES TO CONVENTION.

Railroads Grant Reduction In Fare for Cotton Growers' Meeting.

New Orleans, Jan. 11.—The Southeastern Passenger association has just notified the New Orleans Progressive Union that a rate of one fare for the round trip plus 25 cents has been authorized by all interested lines for the convention of the Southern Cotton Growers' Protective association which meets in New Orleans Jan. 24, 25 and 26.

President Harvie Jordan, anticipates a large gathering of southern cotton growers, bankers, merchants and mill men when plans will be devised for warehousing and holding cotton for higher prices.

The Waco plan is one which is engaging the attention of al, as the method will be a feature program of discussion.

Jealous Boy Tries Suicide.

Newport News, Jan. 11.—Because his girl sweetheart, still in short skirts, attended a church entertainment with another boy, Peter Spratley, 17 years old, procured a revolver and informed several friends at the church he would not be alive in the morning. Then he went to the rectory, leaned against the front door and shot himself in the stomach. He probably will not recover. Spratley is a brother of Vernon Spratley, formerly principal of the Newport News High school, now of the University of Virginia.

Girl Commits Suicide at a Dance.

Chicago, Jan. 11.—Mabel Wright, a daughter of a wealthy Englewood family, committed suicide at a dance in the American theater. She left a note saying: "I cannot stand it any longer. My husband has deserted me." Her parents and brother say they never knew she was married and do no believe it yet. The police are looking for a broker who is said to be the husband.

PREFER CHARGES AGAINST SWAYNE

Special Committee Makes Its Report To Tho House.

OTHER NATIONAL CAPITAL NEWS

Senator Cockrell Accepts Appointment by President on the Interstate Commerce Commission—House and Senate Grinding on Routine Business.

Washington, Jan. 11.—The select committee of the house appointed to draft articles of impeachment against Federal Judge Swayne today completed its work by the preparation of 12 articles of impeachment. They embrace obtaining money by false pretenses; using the property of a bankrupt corporation in the hands of a receiver apointed by himself, and without making compensation to the company; for disobeying the law requiring him to live in his district; for "unlawfully and maliciously" fining and imprisoning E. T. Davis and Simeon Belden, attorneys at law for alleged contempt of the circuit court of the United States; for "unlawfully committing to prison" W. C. O'Neal, on the charge that he had committed contempt of the district court of the United States.

A minority report signed by Repesentatives Littlefield, of Maine, and Parker, of New Jersey, dissents to all the articles of impeachment except that pertaining to the falsification of the expense account of Judge Swayne.

Representative Gillett, of California, also signed this report with a note that he dissents from all the articles of impeachment.

Washington, Jan. 11.—Senator Cockrell, of Missouri, has decided to accept the position on the interstate commerce commission offered him some time ago by President Roosevelt. He will succeed Commissioner James Yeoman, of Iowa, whose term expired on the 7th instant. Senator Cockerill has indicated his decision to the president but he expects before assuming his new duties to complete the term for which he was elected to the senat. That will expire on the 4th of March next.

In the House.

In the house today the army and Indian appropriation bills were reported. A resolution was adopted directing the secretary of the interior to inform the house whether or not any of the principal or interest on any Indian trust funds or other moneys of any Indian tribe are being expended for support of any Indian contract schools other than government schools, and if so, what authoritiy he had for so doing.

The house then went into committee of the whole to further consider the bill to improve currency conditions.

In the Senate.

At the beginning of today's session of the senate Mr. Cullom, from the committee on appropriations, reported, the executive, legislative and judicial appropriation bill, and gave notice that he would call it up for action at the first opprtunity.

In presenting a number of petitions for the expulsion of Senator Smoot from the senate, Mr. Daniel said:

"The petitions concern the right of a senator to his seat. Nothing is officially known to the senate concerning this case, which is in committee, and I don't know how the signers of the petitions could pass on the case without the knowledge of the testimony. I present the petitions because the people have the right to send them, but not because I recognize the propriety of them."

Attempt to Blow up Statue.

An unsuccessful attempt was made today by one or more civilians to blow up the statue of Frederick the Great, recently presented to this government by the emperor of Germany, and now standing in the war college grounds. A charge of explosives with lighted fuse was attached to the fence surrounding the statue, but was removed by an employe before it exploded. No damage resulted to the statue or to property or persons.

Prompt measure were taken to do tain the perpetrators of the crime before they left the grounds, but they did not succeed. The police authorities have been notified and all available information is being placed before them with a view to arresting the guilty parties.

ANDY POPE ENDS HIS LIFE.

After He had Killed His Brother Jesse He Takes Poison.

Montgomery, Ala., Jan. 11.—The details of the killing of Jesse Pope by his brother, Andy Pope, at Midland City, last week, and the suicide of the latter by taking strychnine, show that Andy was fully at himself before he took the drug, and did it with every faculty exercising its funtions.

After the shooting he went to the home of another brother and secured the drug. He told the members of the household what he had done, and that he was going to take his own life. They undertook to get the poison from him, but stood them off with the pistol he had used to kill his brother.

He then went back to where the shooting had taken place and assured himself that Jesse was dead, and went to his home, where he informed his wife what had occurred, and of his own determination to die. She pleaded with him, and tried to get to him but he kept her back and made her prepare the bed for him. Then h told her to summon her people, which she did, and as soon as he saw them coming he swallowed the drug, got into bed and was dead in 20 minutes.

After taking the poison he told what he wanted done with his property, and gave instructions about the care of his family.

NAN PATTERSON STILL IN JAIL.

She Is Suffering with Tonsilitis and an Operation May Be Necessary.

New York, Jan. 11.—Nan Patterson, who is awaiting a second trial on a charge of killing Caesar Young, a wealthy bookmaker and horseman, is ill with tonsilitis in her cell in the Tombs prisons. Her condition is regarded as serious by the Tombs physician, and he said that she would probably have to submit to an operation for the removal of her tonsils. Miss Patterson receives a large number of letters every day. In her mail today there was a registered letter from a man in Portland, Ore., inclosing $25, with the request that she use the money to purchase for herself a New Year's token. The letter said Miss Patterson has many sympathizers in the west who believe her innocent, and concluded:

"If you need more money, say the word."

Miss Patterson gave the money to her father, saying, "Take this and buy mamma a present and tell her I am sorry I am not home with her."

COMMISSION RESUMES ITS WORK

Evidence Concerning North Sea Incident Will Be Heard.

Paris, Jan. 11.—The international commission to inquire into the North ea incident resumed its sessions at the foreign office today.

Admirals Von Spaun (Austria) and Doubassoff (Russia) were present, the latter's appointment was officially announced thus making permanent Admiral Kazanakoff's retirement on account of illness. Admiral Fournier (France) was unanimously chosen permanent president. In the context of his speech of acceptance Admiral Fournier said he hoped the commission would be spared with the same moderation and wisedm which induced Emperor Nicholas and King Edward to refer the question to arbitration.

Senator Smoot Opens Defense.

Washington, Jan. 11.—The opening of the defense in the investigation of the protests against Senator Smoot from Utah have been conalnued until tomorrow on account of the inability of A. S. Worthington, counsel for Senator Smoot, to attend. Mr. Worthington and Attorney Waldemar Vancott were in Utah and Idaho during the recess of congress interviewing witnesses to be called to combat the testimony against Senator Smoot and the Mormon church. Judge W. H. M. Van Cotton, of Utah, and F. H. Holtzeimer, of Idaho, and Representative French of Idaho, were the only witnesses present today.

GERMANY IS FACING BIG COAL STRIKE

Nearly 300,000 Miners Likely To Quit Their Jobs.

ONLY WEEK'S SUPPLY ON HAND

Mine Owners Claim They Cannot Agree to the Demands of the Miners. May Stop the Wheels of Industry Throughout Empire.

Cologne, Germany, Jan. 11.—Both the miners and mine owners throughout the Rhenish and Westphalian districts are preparing for a general strike. So far only 20,000 out of a total of 270,000 men concerned have gone out.

The mine proprietors began to rejecting requests yesterday and as soon as their replies are received the miners, according to their previous decision, do not go to work when it is time for their next shift. The employers under the law fixing trade relations between employer and employe are notifying the miners to return to work or be discharged with the loss of six days' wages.

The miners at seven in the Dortmund mines went out today. The proprietors affirm that they are unable to agree to the demands to include the time of going to and returning from the shafts in the wage period nor can they make expensive alterations in declining the mines because the owners claim Germany would, thereby, lose her position in the international competitive field both in coal itself and in manufactures by the use of coal. Some proprietors aver that the economic equilibrium is so delicate that the whole industrial fabric of Germany can be disarranged by charging more for coal than heretofore, while others maintain that Germany could not in the case of a change in the price compete with the Belgian and French producers. Only a week's supply of coal, it is further asserted, is in store.

The matter is causing a tremendous discussion in the press, most of the newspapers of Cologne, Frankfurt, Duesseldorff and Essen, setting forth the mine owners' position, while the Socialist periodical proclaims that a social war is beginning.

POLICE CLEAR UP MYSTERY.

Men Confess They Robbed Car of Silver Bullion.

East, St. Louis, Ill., Jan. 11.—I nthe arrest and confession of William Burroughs, George Rodgers and William Majors, the police have cleared up the mystery surrounding the robbery of a bonded car, in the terminnal yards of $24,800 worth of silver bullion consigned from the El Paso Smelting company to the United States mint at Philadelphia, more than a month ago. The men are teamsters.

Part of this bullion was recovered the day after the theft, but the remainder is now supposed to have been sold in a lead foundry, having been sold at one cent a pound, in mistake for baser metal.

Fel Bergaum, a junk dealer in St. Louis, has been arrested charged with receiving stolen property. Efforts are now being made to trace the bullion which the junk dealer says he handled for lead.

Heavy Snow at Knoxville.

Knoxville, Tenn., Jan. 11.—This city is experiencing its most extended snow for many years. Last Thursday night snow fell heavily and it has continued at intervals since. This morning about 3 inches covered the ground, with prospects of additional snow tonight. Sleighing is quite general, for the first time in years.

Thirty-Two New Indictments.

Pueblo, Colo., Jan. 11.—The grand jury has returned 32 new indictments, all charging fraud in connection with the recent election. Several of the indictments are against persons already arrested. The remainder are against persons not indicted heretofore. The papers have not yet been served.

FELL THROUGH OPEN WINDOW

Miss Krauss' Tragic Death at Savannah Sunday Morning.

DAUGHTER OF MAX KRAUSS

Father Was in Jacksonville When Sad and Tragic News Reached Him, But Went Immediately to Savannah. Death from Concussion of Brain.

One of the saddest accidents of the kind which has occurred in Savannah for many years, and one which possibly carried more sympathy, was an accident which occurred Sunday morning, and which cost Miss Regina, the handsome, accomplished and devoted daughter of Mr. and Mrs. Max Krauss, her life.

In view of the fact that Mr. Krauss is well known and popular throughout this section, as well as the entire State, The Sun publishes the following partial account from The Savannah News of Monday:

"Miss Regina Krauss, eldest daughter of Mr. and Mrs. Max Krauss, died at the residence of her father, No. 10 Hull street, west, yesterday morning at 11 o'clock from the effects of a fall from a second story window two hours before.

"Miss Krauss' death was one of the saddest which has recently occurred in Savannah, and was a great shock to those who had known her intimately. She had been particularly bright and cheerful the night before at a card party, and had already talked with the members of the family yesterday morning.

"Just how it occurred no one is able to say. Miss Krauss was found in an alley by the side of the house. In falling, her head struck the brick pavement. Her skull was crushed, producing concussion of the brain.

"The night before Miss Krauss and some friends had played cards. Early yesterday morning she got up, saying she could not sleep and went into a room where her sister and a guest were sleeping and lay down. Between 8:30 and 9 o'clock she went into an adjoining room. When some time elapsed and she did not return, her sister went to look for her and found her lying just beneath an open window in the yard below. She was unconscious and remained so until she died shortly after 11 o'clock.

"Miss Krauss was one of the most lovable of characters, absolutely unselfish and entertaining. With the announcement of her death numbers of friends gathered and extended their sympathies to the grief-stricken family.

"Mr. Krauss was in Jacksonville when he received the news of his daughter's tragic death. He reached home at 10:30 o'clock at night.

"The deceased was 26 years of age, and leaves a father and mother, Mr. and Mrs. Max Krauss, a sister, Miss Elizabeth Krauss, and a brother, Mr. Jerome Krauss."

ESTREATED HIS BOND.

George Foster, Captured Near Cyril, Must Suffer Consequences.

Because his poor discretion tempted him with success to estreat a bond, George Foster, colored, has got himself into trouble, and must now suffer the consequences.

A few weeks ago Foster was arrested for some minor offense. He resisted arrest vigorously, and, while the offense for which he had been arrested was adjusted, he was placed under a bond of $250 for resisting an officer in the discharge of his duty, and should have appeared in the county judge's court upon a certain recent date. Instead of appearing, however, he "jumped" the bond, and was arrested upon a capias by Deputy Sheriff Granger near Cyril Saturday and brought to Gainesville. His bond having been increased to $1,000, he was unable to secure same and was remanded to jail to await the next term of the circuit court.

Sickening Shivering Fits

Of ague and malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after effects. E. S. Mundy of Henrietta, Tex., writes: "My brother was very low with malaria fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists. Price 50c, guaranteed.

SCOTT'S EMULSION

We don't put Scott's Emulsion in the class of advertised cure-alls; it doesn't belong there. We hardly like to use the word "cure" at all, but we are bound to say that it can be used for a great many troubles with great satisfaction. Its special function is to repair the waste of the body when the ordinary food does not nourish, and this means that it is useful in many cases which are indicated by wasting.

BOUGHT FINE STOCK.

N. A. Callison of Spring Park Makes Additional Purchases.

N. A. Callison, manager of the Spring Park Stock Farm Company at Bennington, is determined to make of this place one of the finest stock farms in the South. He has just returned from Biltmore, N. C., where he purchased a quantity of registered stock and game.

"I never saw the like of registered stock and game since I was born," remarked Mr. Callison Monday, in referring to the magnificent live stock and poultry on the Biltmore estate, which is the property of Vanderbilt. "It is the prettiest place I ever saw, and it does a fellow's heart good to go through and examine the stock and poultry, and the creamery, which is one of the finest in the United States."

Mr. Callison went for the purpose of making purchases. While the Biltmore estate was not established for money-making purposes, the stock is disposed of as much to secure a reputation as for anything else.

Manager Callison included in his purchases four head of registered Jerseys, two of which were imported direct from the Isle of Jersey. Of this lot three are females, one male; two female and one male Berkshire hog, the latter costing $100. These animals are the genuine English bred; one coop Plymouth Rock chickens, one coop of Bronze turkeys, imported, and one crate of Tonlouse geese. This stock has all arrived, with the exception of the cattle, which are expected today.

Manager Callison was Monday celebrating the birth of the first registered Hereford calf on the farm. This calf is a descendant of Leedale's Princess, a $500 heifer, which was a prize-winner at the St. Louis World's Fair, and which was recently purchased and brought to this farm.

WOULDN'T SUPPORT FAMILY.

George Rollins Placed Under Bond to Compel Him to Feed Family.

George Rollins is the name of a big, greasy-looking coon who calls Archer his home, and whom the neighbors have openly declared was not really fit for owl bait, since it was alleged he turned his back repeatedly upon his wife and child, refusing to succor them with the necessities of life in the form of grits and bacon and clothing. The result is that Rollins has been placed under a bond requiring him to support his family, and in the event of failure to properly do so, he will be given a few lessons in the naval stores industry at the McDonald camp.

Rollins was arrested Monday morning by Deputy Sheriff Curl and brought to Gainesville, where he was arraigned before Justice Colman, with the foregoing result.

Harry Pearce, colored, was arraigned upon a charge of vagrancy, and given three months in which to make up his mind to go to work. He will also in the meantime receive lessons in turpentining at Fairbanks. Pearce was arrested by D. E. Godwin, an employe of S. B. McDonald at Fairbanks.

A Card.

One year ago our business card was published in The Gainesville Sun to inform the good people of Florida that we were located at at 115 N. E. Main street, Gainesville, prepared to give special attention to the treatment of chronic or long standing diseases of whatever nature. We wish to thank the people for their liberal patronage during the year, several hundred having been treated, many of them restored to health and others permanently benefited. We beg to assure all that during the present year, as in the past, no trouble or expense will be spared in giving each case the very best up-to-date treatment.

THE NEWS FROM MELROSE.

Influx of Northern Visitors—Town Election—Other Notes.

Melrose, January 10.—Rev. C. H. Sistrunk preached his first sermon at the Methodist church on Sunday to a large and appreciative congregation.

The first social tea of the season will be given by the Ladies' Literary Society on Tuesday night at their hall.

At the town election held on Tuesday the following were elected councilmen: A. A. McRae, W. A. Vogelbach, W. H. Lee. W. E. Priest was elected town clerk.

T. B. Ellis and Deputy Sheriff J. H. Granger of Gainesville were in town on Monday on legal business.

Rt. Rev. Bishop E. Y. Weed will hold morning service at 11 a. m. and evening service at 7:30 p. m. in Melrose on January 22d.

The first meeting of the Melrose Reading Club was held at Mrs. Ovis' on Wednesday p. m. Hereafter the meeting will be every Wednesday until the close of the season.

F. L. Carrier has had quite a run on the very pretty postal cards with Melrose and Florida scenery photographs on them, made by him. Some have gone as far as China and India.

Quite an influx of visitors and regular winter residents took place during the week. Among them are Messrs. Chamberlain, Abrams and Edicks of Kalamazoo, A. Patterson and J. Patterson, wife and child of Louisa, Ohio, Mr. and Mrs. Geo. Keeler and son of Cheshire, Conn., and Mr. and Mrs. T. Billam of Ansonia, Conn.

MANY NEW STUDENTS.

East Florida Seminary Will Enjoy An Excellent Spring Term.

Notwithstanding that this is the beginning of the spring term of East Florida Seminary, a great many new students have entered for the first time, and have settled down to business at the beginning. It is calculated that before the present week is over the enrollment in new students will have reached twenty-five, and they come from every section of the State.

Among those enrolled at this term for the first time are Alexander Lynch of Washington, son of Mrs. W. B. Lynch, formerly of Gainesville; Misses Rawls of Alachua, Freeman of Seabreeze, Corbett of Welborn, Carniff of Jacksonville and Shaw of Alachua. Others are expected daily.

Prof. Jere M. Pound, the superintendent, with his corps of efficient assistants in the various departments, is making for the Seminary a record of which they should well feel proud, and which tend to benefit the institution permanently.

A Grim Tragedy

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oaklandon, Ind., writes: "My wife had the consumption, three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One nose relieves. ANOTHER INDUSTRY FOR BUSY ALACHUA

Ten Ton Ice Plant Will be Erected in That Town at Once.

THE DIAMOND ICE COMPANY

Announces Its Intention of Building Both at Alachua and Micanopy to Meet the Demand, Which Is Heavy At Certain Seasons of the Year.

As will be noted from announcement, the Diamond Ice Company, realizing the necessity and the demand, has decided to erect an ice manufacturing plant at Alachua, which will be operated in connection with the big plant here.

In speaking of the matter Monday Manager R. B. Livingston stated that the machine would have a capacity of ten tons, and would be modern in every way, being the product of the Columbus Iron Works, Columbus, Ga. "These people make absolutely the finest ice machinery in the United States, and we have decided to install the Columbus system," he remarked.

The plant of the Diamond Ice Company in this city is of twenty tons capacity. It is what is commonly termed a "double plant," being two machines of ten ton capacity each.

Mr. Livington stated that it was for the purpose of meeting the demand of certain localities that the new plant will be erected. Alachua enjoys excellent shipping facilities, being located on three railroads, hence shipping is easy and quick as well as rates reasonable. The Alachua factory will supply the demand from all points north and west, including Suwannee river points, while the business from the south and east will be taken care of by the Gainesville plant. In this manner Manager Livingston hopes to supply the demand promptly and without delay.

It is the ultimate intention of the company to erect a plant at Micanopy. This plant will be of the same capacity as that of Alachua; but no immediate effort will be made to establish the factory there. No definite action will be taken at Micanopy until the Alachua plant is completed and in running order.

A VALUABLE TRANSFER.

B. R. Colson and J. W. Blanding Purchase Valuable King Estate.

One of the most important real estate deals transpiring in this city for some time was the deal recently consummated, whereby B. R. Colson of the Alachua County Abstract Company and J. W. Blanding purchased from Fred W. King the valuable King estate, located in East Gainesville.

The property acquired by Messrs. Colson and Blanding comprises twelve lots, 100 feet front by 150 deep. These lots face on Alachua avenve and King street, and are among the most desirable in the city for building purposes. The fact that Alachua avenve is now being paved will make the property more desirable, and inasmuch as it will be placed on the market will no doubt make a ready sale.

Appointed a Delegate.

Hon. H. H. McCreary, State Senator from Alachua county, has received appoitment by Governor Broward as a delegate to the National Good Roads Convention, to be held in Jacksonville under the auspices of the Jacksonville Board of Trade on January 19, 20 and 21.

The subject of good roads is now agitating the public mind throughout the more progressive counties of the State, and no better improvement can be made that will prove of greater moment to the State.

A large crowd is anticipated at this convention, and it is confidently believed that the exchange of ideas, together with the suggestions offered by the government experts who will be there and the actual working of the machinery in the construction of highways will prove a big thing and result in great benefit.

Accommodations Wanted.

Ferdinand Bayer, secretary of the Florida Winter Bible Conference of this city, which opens on the 5th day of February, says that he would like everyone who can accommodate boarders, or who can furnish rooms, or take table boarders, to send him a list of how many they can accommodate and give rate per day, week and month. He is receiving inquiries every day, and would like this information at once in writing so that he may be in a position to give proper answers.

WILLIAM T. M'CREARY

Died at His Home in Cedar Key on Sunday, January 8, 1905.

William T. McCreary, born at Smithville, N. C., in 1857, died at his home in Cedar Key on Sunday, the 8th inst.

Deceased was the son of William T. and Mary Hamilton McCreary. Soon after the Civil War he removed with his father to Florida, first taking up his residence at Fernandina, and later making his home at Cedar Key, where he has since resided. His dear mother died when he was about six years of age.

When comparatively a young man Mr. McCreary married Miss Jennie Took. His wife died some years ago, leaving three sons and three daughters.

On September 18th, 1903, Mr. McCreary had the misfortune to fall through an open hatch in his fish house, which had been left open by his packer, breaking several of his ribs and sustaining other internal injuries, from the effects of which he has never recovered, being confined to his bed most of the time since he sustained those injuries. His remains will be interred at Cedar Key today, being laid to rest beside those of his beloved wife.

Besides his children—Mrs. Maude Crevasse, John and Ernest, Miss Laura, Pearl and Willie McCreary—he leaves two brothers, Senator H. H. McCreary of Gainesville and Robert McCreary of Hudson, Fla., besides several sisters and step-mother, Mrs. Annie E. McCreary of Cedar Key.

William T. McCreary, like all humanity, had his faults, but a more devoted friend never lived. He never failed to show his appreciation of a kindness or to resent an insult, but was always ready to extend a forgiving hand upon apology if he was in the right, or to make due apology if he was wrong.

He bore his sufferings with a fortitude seldom manifested by one so sorely afflicted, being continually attended by his eldest daughter, Mrs. Crevasse, and "passed over the river" as peaceably as it was possible for one to leave this world who had suffered as he had.

Senator and Mrs. H. H. McCreary departed Monday night for Cedar Key, where today they will attend the funeral. Friends extend sincere sympathy.

BANK IN FINE CONDITION.

Meeting Stockholders First National. Election of Officers.

The annual meeting of the stockholders of the First National Bank was held in the bank building Tuesday, at which the election of officers was held as follows:

Jas. M. Graham, president; Geo. W. Hyde, vice-president; H. E. Taylor, cashier; Lee Graham, assistant cashier. Directors—Jas. M. Graham, Geo. W. Hyde, H. E. Taylor, Lee Graham, Perry M. Colson.

The meeting was well attended. A general review of the business for the past year was very encouraging, and showed the financial condition of the institution all that could be desired. Officered by as clever and efficient gentlemen as controlled the affairs and destinies of the bank, it is no wonder that its report will show up favorably with any financial institution in the State. The First National Bank has never been in a more prosperous condition, and the people of this section who are depositors have confidence in the future of the institution.

MILL AND FACTORY SALE.

George W. Hyde Enjoying Fine Trade. Store Crowded at All Times.

As the best evidence that "it do" pay to advertise, The Sun refers its readers to the continually crowded store of Geo. W. Hyde, the result of a mill and factory sale advertisment which he placed in this paper recently.

In this advertisement Mr. Hyde announced that he had associated himself with Shepherd Watson of the Mill and Factory Syndicate of New York, for this special sale only. Mr. Watson, in addition to Hyde's tremendous and diversified line of dry goods, etc., bought a quantity of mill and factory ends, direct from the mills, which were placed on sale with the regular line at ridiculously low prices. It did not require the carefully perusing public long to determine that there were bargains, with the result that the sale began successful and continued so.

Mr. Hyde will continue this sale until Monday, the 16th inst. The line includes everything in dry goods, ladies' furnishings and millinery, as well as ladies' and gentlemen's and children's shoes, and those desiring real bargains will do well to avail themselves of this opportunity.

Prominent Visitors Leave.

Rev. and Mrs. S. D. Marsh of Corning, N. Y., who have been here for the past few days as guests of the Kaufmann Inn, departed Saturday for South Florida.

Mr. Marsh is pastor of the leading Baptist church at Corning, and is a leading spirit in religious educational work in that section. He resided formerly in Florida, and at one time was pastor of the Baptist church at Citra, where he enjoyed fine congregations and his efforts resulted in great good. He was a stockholder in the great ministerial orange grove, in which hundreds of ministers of all denominations from all sections of the country placed their money several years ago, and which was frozen to the ground just at the time when it promised to prove profitable. Mr. Marsh was the organizer of the company which might have made several thousand dollars for the company every year had it not been for those fatal freezes.

After the freezes of 1894-5 the project was abandoned, and Rev. Marsh, with others, resumed their profession of preaching for a living.

Mr. and Mrs. Marsh have many friends in this section who were glad to greet them again, and who wish that their stay in Florida will be pleasant.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O.

PRODUCE AND SAVE

YOUR MEAT

For the information of those who desire to have their hog meat cured in our cold storage we recommend the following method of preparation:

As soon as the butchered animal has cooled down, cut up and trim to perfect shape, leaving chine bones on hams, and blade bones on shoulders; salt in the usual manner, using not more than 10 pounds salt, 3 ounces brown sugar, 2 ounces saltpeter and 1 ounce red pepper to each 100 pounds of meat. It should reach the cold storage not later than three days after so prepared. If any additional salt is needed after reaching us, we will supply it. Leave in cold storage 25 to 30 days, according to size of meat. After taking from cold storage wash in warm water and dry, then wrap or sew up closely in muslin so as to prevent attacks from flies or other insects; hang up and smoke at intervals for three weeks. It will take smoke perfectly through the muslin. Green hickory wood makes the best smoke. When dry, take down and pack in boxes, a layer of cut straw, then one of meat, etc., and you will have as fine meat as can be produced, until following season.

Parties having railroad facilities may with perfect safety ship by freight and have it returned same way. Mark plainly to us and also your name on box or barrel and mail us bill of lading. Prepay freight at shipping point. Our charge for storage is one cent per pound for one month. We also wish to buy hogs dressed. We solicit patronage in person confidence to give entire satisfaction, and feel that our enterprise is of the greatest benefit to the farmer. Yours for home-made meat.

The fast tourist trains are now on, and hundreds of Northerners are seeking the delightful climate of Florida. A majority of the hotels in the State are now open, and from indications the present season will prove a very successful one from a tourist standpoint.

THE PARDONING BOARD.

Referring to the exercise of the pardoning power by the governor and his cabinet, The Tampa Tribune says:

"For some time past The Metropolis, The Tampa Tribune, The Punta Gorda Herald and various other papers throughout Florida, fearful of the result of the reckless actions of the State Pardoning Board in extending unmerited clemency to convicted criminals, have advocated the abolition of the pardoning power.

"This, it is true, is a grave proposition to advance, and one that this paper has supported only because it feared that the frequency with which the power is abused in the State would result in a total loss of respect for law and order, and reduce the State to a condition of practical anarchy, when person and property would be without safeguard, and the government would be a farce.

"It is doubtful if the people of the State could be brought to adopt such radical steps before the anticipated evil results would actually come to pass, so The Tribune suggests that, instead of the abolition of the pardoning power, it should be made the duty of the prosecuting attorneys to appear before the State Pardoning Board whenever a petition for commutation of sentence or pardon is made, and present to the board, in open session, and in the presence of the prisoner and his counsel, the evidence of the State which resulted in the conviction of the accused, and argue the same to the board, as to the trial jury. The counsel for the petitioner should be required to furnish a written statement of the grounds upon which the pardon or commutation will be asked, to the State's attorney a reasonable length of time before arguing the petition before the board, and also a copy to the party against whom the crime was committed; or, in case of murder, to the next kin of the deceased. And, in addition, a wilful misstatement to the Pardoning Board should be deemed perjury and treated as such.

"As pointed out Tuesday morning in The Tribune, a great evil in cases before the Pardoning Board is that usually only one side is presented, and that not always truthfully. It should be compulsory that the State's side should be heard, and the hearing of appeals should be public, though, of course, the board should conduct its deliberations in private.

"To establish many iron-clad rules of the Pardoning Board would be to defeat the ends of executive clemency, and to abolish the power entirely is fraught with the danger of cruel injustice, and such a suggestion would receive only condemnation, but for the fact that it may be impelled by stern necessity, to prevent the intolerable abuse of a sacred power and all the evils of anarchy. Before proceeding to this step, which, perhaps, we must do some day, every precaution should be taken to prevent the evils complained of now."

The discovery of evidence that the Atchison, Topeka & Santa Fe Railway Company has been guilty of flagrant violation of the anti-rebate law has led to the further discovery of what is popularly called a "joker" in the Elkins anti-rebate law, passed at the last session of Congress and in which the President has taken such pride and to which Republican leaders pointed, throughout the recent campaign, with such magnificent assumption of virtue. Under the old law the officials of the railway which has so flagrantly violated the law could have been sent to the penitentiary, the one thing which prominent railway men fear—for they are amply able to pay their fines when they are caught, which is seldom. The Elkins law, however, repealed the old Interstate Commerce law which provided imprisonment as a penalty for its violation, and more than that, it made the repeal retroactive, so that although the Santa Fe's violation antedated the Elkins law, by its provisions the officials are immune from imprisonment.

An order has been issued from the office of the Florida Railroad Commission calling a meeting of the commission in the city of Tallahassee on the 23d inst. to consider the advisability of amending certain rules and regulation of the Railroad Commission. Several amendments of importance will be suggested and discussed, the adoption of which would no doubt prove of great benefit to the shippers of Florida.

Those cotton bales which were recently burned in the South are believed to have been subjected more to smoke than to fire.

FLORIDA LIBRARY ASSOCIATION.

The Florida Library Association met with the State Teachers' Association, and held a very profitable session. Several new members were secured and much interest manifested in the subject of libraries. Miss Carolyn Palmer, librarian of Stetson University, was elected prasident; Mr. Carn of Ocala, vice-president, and W. W. Hall of Miami, secretary and treasurer.

The association is composed of men and women representing the foremost educational institutions of the State and the most advanced and progressive culture.

Almost every State in the Union has its library association, librarians being its principal constituents; but Florida is unique in that its association is almost altogether composed of school teachers—only one regularly employed librarian being in it. Brother and sister librarians, this ought not to be. Small and insignificant must be the Florida town that does not boast of a library and presumably that library has a librarian, but they have left to the school teachers the honor of inaugurating in the State one of the most forceful movements of the present day.

Prof. McBeath has generously offered space in The Exponent for a library department, which will be filled from time to time with matter relating to this great movement, and contributions are solicited from those interested in the subject. Librarians are especially urged to send in any thought, suggestion, or experience which has proven valuable to them and may help others, and above all else to join the association. The president or any of the officers will gladly give necessary information or send copies of the constitution to those desiring them.

The President cast a boom into the Senate and the House on the day they convened after the holiday recess by permitting it to become known that he was seriously contemplating calling Congress in special session next June. Senators and Representatives rushed to the White House to inquire if such a plan were seriously contemplated by the President, only to learn that it was, and then they gathered in the cloak rooms and committee rooms to discuss the situation. Nothing would be more unwelcome to the average member of Congress than to be called to Washington just at the beginning of the heated term and at a time when most of them are planning vacations and pleasure jaunts, but they received no comfort from the President, who expressed himself disgusted with the disposition of Congress to procrastinate with regard to needed legislation and to make an excuse of the fact that this is a short session to do nothing. The President was even unkind enough to suggest that hot weather might prove an incentive to expeditious work and that time and expense might be saved the country by keeping the refractory Congressmen "in after school," so to speak.

The opinion is general in Congress that the Panama Canal Commission has proven a failure. General Davis, a member of the commission, made so much trouble as governor of the canal zone that it became necessary to send a minister to Panama to attempt to straighten out the difficulties, and even he was powerless against the autocratic and didactic methods of the military governor who ruled the zone as a military camp. Finally it became necessary to send the secretary of war all the way to Panama to settle the differences which had resulted. Now it seems probable that the Panama Commission will be reduced in membership to three engineers who will have charge of the constructive work and that the civil government will be confided to the President.

The assumption that large Republican majorities in Congress will permit any material reduction of the tariff, or any legislation which will seriously curtail the profits of the railways, or hamper the efforts of the trusts to centralize wealth in their own treasuries, is one of the happy hallucinations which the President still cherishes, but in the words of a Republican leader of the House, "Mr. Roosevelt will be a wiser and a better man before he has completed the term for which he has just been elected."

Since the preachers have been assailing the divorce evils so furiously it has shown greater increase than ever. Why not reverse the throttle and advocate it on the homeopathic theory: maybe it will die with disgust then.

The departure of Hon. Wm. N. Sheats and his most estimable wife from this city this week to make their home at DeFuniak Springs was an event greatly regretted by practically all of our people. During the twelve years of his official residence here as State Superintendent of Public Instruction he and his wife both had endeared themselves to most of our people in a manner that makes their loss felt very keenly. What is our loss in this instance, however, is the gain of all the people in the State in a large measure. It is well known that Mr. Sheats during his official career has built up the school system wonderfully, and it will be a source of great satisfaction to many to know that he will be connected with the work of education—in the preparation of teachers at the State Normal at DeFuniak. Here his enthusiastic, efficient work will still be felt for the betterment of education.—Tallahassean.

The selection of Hon. Jas. B. Whitfield as chief justice of the Supreme Court of Florida is but a continuation of a series of success enjoyed by few men of his age in this country. Only a few years ago he commenced his political career as county judge of Leon county. Soon after he resigned this position to accept that of chief clerk of the Supreme Court, and since then his promotion has been so rapid that it has been difficult for those not well versed in politics to keep up with it. He has filled fully half the cabinet positions, always resigning for something better, and has now landed as chief justice of the Supreme Court. The Tallahasseean heartily congratulates him.—Tallahasseean.

The doctors seem bound to drive those people crazy who will listen to them about microbes. The latest appalling statement comes from a Paris famous medical expert, who declares that fire does not destroy disease germs. So the old theory that firewater taken into the stomach would kill microbes must be abandoned and nothing short of wood alcohol will do the business. The doctor will certainly not deny that wood alcohol will kill anything.

Washington, D. C., has a very rigid smoke law which prevents the use of soft coal. This law has heretofore been a dead letter, but President Roosevelt merely gave the word and had it rigidly enforced, and the smoke nuisance thereby abated. If Mr. Roosevelt would only make up his mind to go after the trusts in this manner there would be "something doing."

Firemen have found a way at last of keeping women from pressing too close to the lines at a fire. A New York Turkish bath establishment caught on fire and six men escaped in their skins. The women pressing on the fire lines without further inducement from the firemen, fled.

Our delightful Chauncy says he is as good as re-elected to the United States Senate. As Platt and Odell have both consented to this, it's quite a trifling matter as to what the New York Legisture thinks.

The Western Union Telegraph Co. has been fined $100,000 for the delay of a messenger boy in not delivering a message. They could buy a few autos at that figure, and make big money by so doing.

The trusts have recently sent Attorney-General Moody a copy of their New Year's resolutions. It takes but very little evidence to satisfy the attorney-general of their conversion.

MANY NEW HOUSES NOW CONTEMPLATED

Several Fine Residences Will be Erected Here Soon.

THE BOOM A STEADY ONE

Realizing the Coming Importance of Gainesville as a City, and the Present Demand for Houses, Many Property Holders are Anxious to Build.

The building boom, which has been noticeable in Gainesville for the past year, continues with usual activity, and it is anticipated by those who are in a position to know that activity in the erection of residences and business houses will continue for an indefinite period. Gainesville is growing like the mushroom, and it is a steady and substantial growth at that.

Manager Voyle of the Abstract and Realty Company, who also conducts a general rental business, stated Wednesday to a Sun reporter that never in the history of Gainesville have houses been so scarce. "We used to say that 'desirable houses were scarce,'" he remarked, "but now I can say with all the grace in the world that 'any kind of an old house is scarce,' as we have demands for houses of all classes which we cannot fill."

Among the latest contracts for residences are the following:

The material has been placed upon the ground for the erection of a handsome two-story home by W. B. Phifer, East Seminary street.

Miss Eva Haile will erect a neat cottage on East Orange street. The cottage will be located on the same spot as the cottage occupied by Dr. and Mrs. Giddings, which was destroyed by fire about five years ago. The location is exceptionally fine, and there is no doubt but that the home will be in demand.

J. M. Haile expects to begin at once the erection of a handsome residence on West Main street, N., adjoining his own beautiful home. Order has been placed for the material, and as soon as this is delivered work will begin.

Mr. Dale, who recently purchased a handsome lot on East Main street, N., one of the handsomest residence streets in the South, proposes to begin at an early date upon a modern home. Mr. Dale, who came from Ocala to accept a position with the Dutton Phosphate Company, married a Gainesville young lady. He is consequently wedded to the city, and likes it so well that he decided to establish a home of his own, which will be a credit to the owner and the city.

The Eddins Manufacturing Company, through E. E. Voyle, has secured the contract for erecting a handsome two-story residence for Mrs. H. C. McCreary on West Main street, N., immediately south of the home of Mrs. Foster. It is understood that work on this home will begin at once, and within the next six weeks it will be ready for occupancy. Mrs. McCreary also owns a nice home on East Main street, N.

Material for the erection of the elegant new Episcopal church is now being received, and it is expected that work will begin in a short time, the plans and specifications having been received and the contract let. It was at first decided to use the McCarnoll stone, but later the building committee deemed it best and most economical in the end to employ brick. A first quality Georgia brick, which is among the finest in the world, will be used, and several carloads of this material have already been received from Macon.

W. L. Hill has sold his interest in the [illegible] residence, South Arredondo street, to Mrs. Nellie Jackson. It is understood that Mrs. Jackson will improve the property.

There are no less than twenty residences of all sizes, dimensions and [illegible] contemplation for the next few weeks, which will keep the contractors busy.

Gainesville is in the midst of a boom which is going to prove profitable and lasting and beneficial.

Many papers think it peculiar because President Sam of Hayti has been sentenced to the penitentiary while he is enjoying ease and wealth in foreign lands. We have sentenced some of our postoffice thieves to the same place and they are doing the same as Mr. Sam.

Little Santo Domingo has been given to understand that Uncle Sam will not hesitate to lay him across his knee if it becomes necessary.

LARGE ATTENDANCE IS ANTICIPATED

At the Approaching Bible Conference and Chautauqua.

INQUIRIES FROM EVERYWHERE

Secretary Bayer Says They Come by the Dozen Every Day, and Are From Parties All Over the United States Who Desire to Attend.

As the time approaches, indications become still stronger that the coming session of the Florida Winter Bible Conference, the Christian Workers' Institute and the Gainesville Chautauqua, which will be held in this city for about six weeks, beginning with the convention of the Bible Conference on February 5, will be a glorious success.

Secretary Ferdinand Bayer states that he is receiving by every mail dozens of letters inquiring for particulars regarding boarding houses, rates, etc. These inquiries come from every section of the United States, and in a great many instances are in response to the thousands of pamphlets advertising Gainesville and these attractions, which have been sent out by the Conference advertising committee. This pamphlet comprised thirty-six pages, illustrated, and contains several views and street scenes of Gainesville. The committee very thoughtfully sent out this pamphlet, with other printed matter, to more than two hundred religious papers throughout the United States, a great many of which have responded by giving the attractions liberal mention. Advertising matter has also been sent to the various publications and ministers throughout the State, with a request to advertise the Conference in every way possible, and good results are anticipated from these sources.

"From present indications we are going to have an unprecedented crowd," remarked Secretary Bayer Wednesday. "I am receiving dozens of letters every day from every section of the country asking for general particulars, and our stenographer is kept busy answering these communications. Last year was a big one for these attractions, but I anticipate that the attendance at the coming session will increase in the neighborhood of forty per cent."

ISLAND GROVE NUPTIALS.

Marriages of the Misses Cail Occurred Within Few Days of Each Other.

Island Grove, Jan. 11.—Married, at the residence of and by Justice A. Morrison, on January 2nd, 1905, Mr. Chas. Casagne of Baltimore, Ind., and Miss Omera Cail of Island Grove. No cards.

On January 8th, 1905, at the residence of and by Justice A. Morrison, Mr. James G. Mordacal of Savannah, Ga., and Miss Ollie Cail.

The bride was attired in a neat suit of grey merino, with hat and gloves to match, and wore a white silk scarf around her neck and a white sash of ribbon around her waist. The groom was neatly attired in a suit of black and presented a very genteel appearance.

Their friends extend to them their warmest congratulations for their future happiness and success in life, and may they never want for friends should adverse fortune frown, and rejoice with them now as life's vale is strewn with flowers fresh.

Herman Westphall, a prominent young gentleman of Kansas City, has been visiting his brother, A. M. Westphall of Island Grove, and seems charmed with the climate of Florida so much that he is contemplating a return to the State at an early day to make it his home. He has made a pleasant impression upon the people and a warm welcome awaits his return. He made many warm friends at Island Grove who seemed to regret his departure as they gathered at the home to take leave of him.

To the Public. The Diamond Ice Co. having just been incorporated will, on January 1st, 1905, succeed to the old partnership of Stringfellow Bros. & Livingston, taking on the assets and operating the factory for the benefit of the stockholders. All accounts must be settled on or before that time, as an entirely new set of books will be opened, and all patrons of the old company are requested to call at once and settle their accounts. No new accounts will be opened with persons who have failed to settle their old accounts. Yours truly,

T. B. Stringfellow,
R. L. Stringfellow,
R. B. Livingston.

RUSH—DOKE.

Marriage of Two Popular Young People at Judson Recently.

Judson, January 11.—The residence of C. C. Doke was the scene of a beautiful marriage Tuesday evening when E. A. Rush led to hymeneal's altar Miss Vella Doke, the accomplished daughter of Mr. and Mrs. C. C. Doke. The home had been beautifully and artistically decorated for the occasion, being a perfect bower of roses, holly and other evergreens. Long before the appointed hour the parlor was crowded to its fullest capacity. Prof. Daymond presided at the piano and promptly at 7:30 o'clock the bridal party entered, marching to the sweet strains of the "Wedding Bell March." The party was led by Miss Frankie Sheffield and Pamna Doke, the candle bearers, and Herbert Weeks and Miss Donnie Doke, followed by Louis Abbott and Miss Annie Doke and little Emma Yancey and Catherine Sheffield, the flower girls, who spread sweet flowers in front of the bride and groom.

The picture was a pleasing one—the background of evergreens and the bright young faces and beautiful dresses upon which the light cast its brilliant rays, all conspired to form a picture long to be remembered by those who were present.

The ceremony was performed by Rev. S. W. Sheffield, former pastor of the church here.

After the ceremony the bridal party, together with the family and friends, repaired to the home of the bride's parents. After congratulations had been showered upon the happy pair, a sumptuous supper was spread.

The bride is an accomplished young lady, and Mr. Rush is to be congratulated upon his success in securing such a prize.

The groom is a prosperous orange grower of Port Orange.

They were the recipients of many useful and costly presents.

MICANOPY'S NEW INDUSTRY.

H. M. Sherrouse Constructing Fine Mill—Contemplated Improvements.

The hustling town of Micanopy appears to be enjoying her proportion of the prosperity which is now evident in every section of the county.

Among the improvements at Micanopy which is probably of the greatest magnitude is the erection of the big veneering mill of H. M. Sherrouse, who has almost completed the factory, and expects to have the plant in operation within the next three weeks. Mr. Sherrouse has for several years conducted a small mill at Micanopy, which appeared to meet the demand; but realizing the rapidly increasing production of fruit and vegetables, he felt that his present plant would not be sufficient, hence with commendable energy he is constructing a new and much larger mill, which will be equipped with all modern machinery for the manufacture of crates, boxes and baskets.

With the erection of the proposed ice plant by the Diamond Ice Company of this city and other improvements which are contemplated, Micanopy will soon enjoy a position in the front rank of commerce and manufacture in this section.

Judson Jottings.

Judson, Jan. 11.—I. N. Woods, our merchant and postmaster, went to Montbrook Sunday, where he and Miss Ethel Willis were joined together by the holy bonds of matrimony. They returned today. We wish them a long and happy life. Mr. Woods' father, Leroy Woods, is very ill.

Mrs. L. R. Weeks is improving. She was quite sick last week. Her relatives and friends will rejoice at the news of her taking a turn to get well.

John L. Carter, the efficient clerk of R. S. Tucker, has moved back to his farm, about six miles from here.

Homer Love is shipping his cotton-seed. He is contemplating moving his mill from here to the new railroad at Trenton.

The Secret of Success.

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the two greatest enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it has proved itself the best of all liver regulators? August Flower has a matchless record of over thirty-five years in curing the ailing millions of these distressing complaints—a success that is becoming wider in its scope every day, at home and abroad, as the fame of August Flower spreads. Trial bottles, 25c; regular size, 75c. For sale by W. M. Johnson.

A Sudden Death.

The death of Mrs. Minnie Purcell, wife of Rev. I. P. Purcell, formerly pastor of the C. M. E. Church in this city, at her home, 702 North Sixth street, removes from our midst one of the most sainted women of the city. Mrs. Purcell's death occurred at 1:15 a. m. Sunday morning, she having had a stroke of paralysis at 10 p. m., only surviving it about three hours. Medical aid was immediately summoned and all that was possible was done, but of no avail.

Mrs. Purcell was a Christian lady and her Christian influence was felt throughout the city. The funeral of the deceased was held at St. Paul C. M. E. Church at 2 p. m. Tuesday, and was attended by a large concourse of relatives and friends. She leaves a husband, four daughters, two sons, one of whom is only seven years old, and a host of friends to mourn her loss. Her funeral was conducted by Rev. J. Chavas, present pastor of the church, aided by most all of the colored ministers of the city.

The relatives of the deceased desire to thank their many friends in the city, both white and colored, who have rendered them so much aid and assistance since the death of their beloved wife and mother. A Relative.

New Store at Rochelle.

E. F. Zetrouer, who was born and reared in this county, but for the past two or three years residing at Tampa, where he has been engaged in the practice of law, has decided to return to his old home and reside here permanently.

It is announced that Mr. Zetrouer will open a general store at Rochelle, and inasmuch as he is quite popular among the people of that section, it is needless to add that he will enjoy a fine trade.

Keep your eye on Rochelle. The progressive village will soon have three up-to-date general stores, and it is safe to venture that within the next five or six years, at the present rate, it will become one of the most important towns in the county, possibly ranking fourth. Business men appreciate the advantageous location of Rochelle, and are not slow in taking advantage of it from a commercial standpoint.

A Fine Catch.

Mr. Whitemore of Bowling Green, Ky., who is known among his friends at the Home as "the dead game sport," went fishing to Prairie Creek with C. D. Schafer yesterday and retained his reputation as far as the "sport" was concerned, although Mr. Schafer was not far behind him.

These deciples of Isaac Walton, succeeded, after a few hours' sport, in landing about seventy-five pounds of fine fish of all varieties, including trout, pickerel, bream, perch, etc. The load was so heavy that it was a difficult matter to lift it. The fish were taken to the Home, where the guests will feast on members of the finny tribe to their hearts' content.

Mr. Whitemore is delighted with his trip, and says he believes Florida has the finest fishing grounds in the United States.

The fast tourist trains are now on, and hundreds of Northerners are seeking the delightful climate of Florida. A majority of the hotels in the State are now open, and from indications the present season will prove a very successful one from a tourist standpoint.

THE PARDONING BOARD.

Referring to the exercise of the pardoning power by the governor and his cabinet, The Tampa Tribune says:

"For some time past The Metropolis, The Tampa Tribune, The Punta Gorda Herald and various other papers throughout Florida, fearful of the result of the reckless actions of the State Pardoning Board in extending unmerited clemency to convicted criminals, have advocated the abolition of the pardoning power.

"This, it is true, is a grave proposition to advance, and one that this paper has supported only because it feared that the frequency with which the power is abused in the State would result in a total loss of respect for law and order, and reduce the State to a condition of practical anarchy, when person and property would be without safeguard, and the government would be a farce.

"It is doubtful if the people of the State could be brought to adopt such radical steps before the anticipated evil results would actually come to pass, so The Tribune suggests that, instead of the abolition of the pardoning power, it should be made the duty of the prosecuting attorneys to appear before the State Pardoning Board whenever a petition for commutation of sentence or pardon is made, and present to the board, in open session, and in the presence of the prisoner and his counsel, the evidence of the State which resulted in the conviction of the accused, and argue the same to the board, as to the trial jury. The counsel for the petitioner should be required to furnish a written statement of the grounds upon which the pardon or commutation will be asked, to the State's attorney a reasonable length of time before arguing the petition before the board, and also a copy to the party against whom the crime was committed; or, in case of murder, to the next kin of the deceased. And, in addition, a wilful misstatement to the Pardoning Board should be deemed perjury and treated as such.

"As pointed out Tuesday morning in The Tribune, a great evil in cases before the Pardoning Board is that usually only one side is presented, and that not always truthfully. It should be compulsory that the State's side should be heard, and the hearing of appeals should be public, though, of course, the board should conduct its deliberations in private.

"To establish many iron-clad rules of the Pardoning Board would be to defeat the ends of executive clemency, and to abolish the power entirely is fraught with the danger of cruel injustice, and such a suggestion would receive only condemnation, but for the fact that it may be impelled by stern necessity, to prevent the intolerable abuse of a sacred power and all the evils of anarchy. Before proceeding to this step, which, perhaps, we must do some day, every precaution should be taken to prevent the evils complained of now."

The discovery of evidence that the Atchison, Topeka & Santa Fe Railway Company has been guilty of flagrant violation of the anti-rebate law has led to the further discovery of what is popularly called a "joker" in the Elkins anti-rebate law, passed at the last session of Congress and in which the President has taken such pride and to which Republican leaders pointed, throughout the recent campaign, with such magnificent assumption of virtue. Under the old law the officials of the railway which has so flagrantly violated the law could have been sent to the penitentiary, the one thing which prominent railway men fear—for they are amply able to pay their fines when they are caught, which is seldom. The Elkins law, however, repealed the old Interstate Commerce law which provided imprisonment as a penalty for its violation, and more than that, it made the repeal retroactive, so that although the Santa Fe's violation antedated the Elkins law, by its provisions the officials are immune from imprisonment.

An order has been issued from the office of the Florida Railroad Commission calling a meeting of the commission in the city of Tallahassee on the 23d inst. to consider the advisability of amending certain rules and regulation of the Railroad Commission. Several amendments of importance will be suggested and discussed, the adoption of which would no doubt prove of great benefit to the shippers of Florida.

Those cotton bales which were recently burned in the South are believed to have been subjected more to smoke than to fire.

FLORIDA LIBRARY ASSOCIATION.

The Florida Library Association met with the State Teachers' Association, and held a very profitable session. Several new members were secured and much interest manifested in the subject of libraries. Miss Carolyn Palmer, librarian of Stetson University, was elected prasident; Mr. Carn of Ocala, vice-president, and W. W. Hall of Miami, secretary and treasurer.

The association is composed of men and women representing the foremost educational institutions of the State and the most advanced and progressive culture.

Almost every State in the Union has its library association, librarians being its principal constituents; but Florida is unique in that its association is almost altogether composed of school teachers—only one regularly employed librarian being in it. Brother and sister librarians, this ought not to be. Small and insignificant must be the Florida town that does not boast of a library and presumably that library has a librarian, but they have left to the school teachers the honor of inaugurating in the State one of the most forceful movements of the present day.

Prof. McBeath has generously offered space in The Exponent for a library department, which will be filled from time to time with matter relating to this great movement, and contributions are solicited from those interested in the subject. Librarians are especially urged to send in any thought, suggestion, or experience which has proven valuable to them and may help others, and above all else to join the association. The president or any of the officers will gladly give necessary information or send copies of the constitution to those desiring them.

The President cast a boom into the Senate and the House on the day they convened after the holiday recess by permitting it to become known that he was seriously contemplating calling Congress in special session next June. Senators and Representatives rushed to the White House to inquire if such a plan were seriously contemplated by the President, only to learn that it was, and then they gathered in the cloak rooms and committee rooms to discuss the situation. Nothing would be more unwelcome to the average member of Congress than to be called to Washington just at the beginning of the heated term and at a time when most of them are planning vacations and pleasure jaunts, but they received no comfort from the President, who expressed himself disgusted with the disposition of Congress to procrastinate with regard to needed legislation and to make an excuse of the fact that this is a short session to do nothing. The President was even unkind enough to suggest that hot weather might prove an incentive to expeditious work and that time and expense might be saved the country by keeping the refractory Congressmen "in after school," so to speak.

The opinion is general in Congress that the Panama Canal Commission has proven a failure. General Davis, a member of the commission, made so much trouble as governor of the canal zone that it became necessary to send a minister to Panama to attempt to straighten out the difficulties, and even he was powerless against the autocratic and didactic methods of the military governor who ruled the zone as a military camp. Finally it became necessary to send the secretary of war all the way to Panama to settle the differences which had resulted. Now it seems probable that the Panama Commission will be reduced in membership to three engineers who will have charge of the constructive work and that the civil government will be confided to the President.

The assumption that large Republican majorities in Congress will permit any material reduction of the tariff, or any legislation which will seriously curtail the profits of the railways, or hamper the efforts of the trusts to centralize wealth in their own treasuries, is one of the happy hallucinations which the President still cherishes, but in the words of a Republican leader of the House, "Mr. Roosevelt will be a wiser and a better man before he has completed the term for which he has just been elected."

Since the preachers have been assailing the divorce evils so furiously it has shown greater increase than ever. Why not reverse the throttle and advocate it on the homeopathic theory: maybe it will die with disgust then.

The departure of Hon. Wm. N. Sheats and his most estimable wife from this city this week to make their home at DeFuniak Springs was an event greatly regretted by practically all of our people. During the twelve years of his official residence here as State Superintendent of Public Instruction he and his wife both had endeared themselves to most of our people in a manner that makes their loss felt very keenly. What is our loss in this instance, however, is the gain of all the people in the State in a large measure. It is well known that Mr. Sheats during his official career has built up the school system wonderfully, and it will be a source of great satisfaction to many to know that he will be connected with the work of education—in the preparation of teachers at the State Normal at DeFuniak. Here his enthusiastic, efficient work will still be felt for the betterment of education.—Tallahassean.

The selection of Hon. Jas. B. Whitfield as chief justice of the Supreme Court of Florida is but a continuation of a series of success enjoyed by few men of his age in this country. Only a few years ago he commenced his political career as county judge of Leon county. Soon after he resigned this position to accept that of chief clerk of the Supreme Court, and since then his promotion has been so rapid that it has been difficult for those not well versed in politics to keep up with it. He has filled fully half the cabinet positions, always resigning for something better, and has now landed as chief justice of the Supreme Court. The Tallahasseean heartily congratulates him.—Tallahasseean.

The doctors seem bound to drive those people crazy who will listen to them about microbes. The latest appalling statement comes from a Paris famous medical expert, who declares that fire does not destroy disease germs. So the old theory that firewater taken into the stomach would kill microbes must be abandoned and nothing short of wood alcohol will do the business. The doctor will certainly not deny that wood alcohol will kill anything.

Washington, D. C., has a very rigid smoke law which prevents the use of soft coal. This law has heretofore been a dead letter, but President Roosevelt merely gave the word and had it rigidly enforced, and the smoke nuisance thereby abated. If Mr. Roosevelt would only make up his mind to go after the trusts in this manner there would be "something doing."

Firemen have found a way at last of keeping women from pressing too close to the lines at a fire. A New York Turkish bath establishment caught on fire and six men escaped in their skins. The women pressing on the fire lines without further inducement from the firemen, fled.

Our delightful Chauncy says he is as good as re-elected to the United States Senate. As Platt and Odell have both consented to this, it's quite a trifling matter as to what the New York Legisture thinks.

The Western Union Telegraph Co. has been fined $100,000 for the delay of a messenger boy in not delivering a message. They could buy a few autos at that figure, and make big money by so doing.

The trusts have recently sent Attorney-General Moody a copy of their New Year's resolutions. It takes but very little evidence to satisfy the attorney-general of their conversion.

Governor Pennypacker of Pennsylvania has swooped down on the press again with another terrible yawp. Our brotherly advice to the Governor is: "Don't monkey with the buzz-saw."

MANY NEW HOUSES NOW CONTEMPLATED

Several Fine Residences Will be Erected Here Soon.

THE BOOM A STEADY ONE

Realizing the Coming Importance of Gainesville as a City, and the Present Demand for Houses, Many Property Holders are Anxious to Build.

The building boom, which has been noticeable in Gainesville for the past year, continues with usual activity, and it is anticipated by those who are in a position to know that activity in the erection of residences and business houses will continue for an indefinite period. Gainesville is growing like the mushroom, and it is a steady and substantial growth at that.

Manager Voyle of the Abstract and Realty Company, who also conducts a general rental business, stated Wednesday to a Sun reporter that never in the history of Gainesville have houses been so scarce. "We used to say that 'desirable houses were scarce,'" he remarked, "but now I can say with all the grace in the world that 'any kind of an old house is scarce,' as we have demands for houses of all classes which we cannot fill."

Among the latest contracts for residences are the following:

The material has been placed upon the ground for the erection of a handsome two-story home by W. B. Phifer, East Seminary street.

Miss Eva Haile will erect a neat cottage on East Orange street. The cottage will be located on the same spot as the cottage occupied by Dr. and Mrs. Giddings, which was destroyed by fire about five years ago. The location is exceptionally fine, and there is no doubt but that the home will be in demand.

J. M. Haile expects to begin at once the erection of a handsome residence on West Main street, N., adjoining his own beautiful home. Order has been placed for the material, and as soon as this is delivered work will begin.

Mr. Dale, who recently purchased a handsome lot on East Main street, N., one of the handsomest residence streets in the South, proposes to begin at an early date upon a modern home. Mr. Dale, who came from Ocala to accept a position with the Dutton Phosphate Company, married a Gainesville young lady. He is consequently wedded to the city, and likes it so well that he decided to establish a home of his own, which will be a credit to the owner and the city.

The Eddins Manufacturing Company, through E. E. Voyle, has secured the contract for erecting a handsome two-story residence for Mrs. H. C. McCreary on West Main street, N., immediately south of the home of Mrs. Foster. It is understood that work on this home will begin at once, and within the next six weeks it will be ready for occupancy. Mrs. McCreary also owns a nice home on East Main street, N.

Material for the erection of the elegant new Episcopal church is now being received, and it is expected that work will begin in a short time, the plans and specifications having been received and the contract let. It was at first decided to use the McCarnell stone, but later the building committee deemed it best and most economical in the end to employ brick. A first quality Georgia brick, which is among the finest in the world, will be used, and several carloads of this material have already been received from Macon.

W. L. Hill has sold his interest in the Cline residence, South Arredondo street, to Mrs. Nellie Jackson. It is understood that Mrs. Jackson will materially improve the property.

There are no less than twenty residences, of all sizes, dimensions and prices, in contemplation for the next few weeks, which will keep the contractors busy.

Gainesville is in the midst of a boom which is going to prove profitable and lasting and beneficial.

Many papers think it peculiar because President Sam of Hayti has been sentenced to the penitentiary while he is enjoying ease and wealth in foreign lands. We have sentenced some of our postoffice thieves to the same place and they are doing the same as Mr. Sam.

LARGE ATTENDANCE IS ANTICIPATED

At the Approaching Bible Conference and Chautauqua.

INQUIRIES FROM EVERYWHERE

Secretary Bayer Says They Come by the Dozen Every Day, and Are From Parties All Over the United States Who Desire to Attend.

As the time approaches, indications become still stronger that the coming session of the Florida Winter Bible Conference, the Christian Workers' Institute and the Gainesville Chautauqua, which will be held in this city for about six weeks, beginning with the convention of the Bible Conference on February 5, will be a glorious success.

Secretary Ferdinand Bayer states that he is receiving by every mail dozens of letters inquiring for particulars regarding boarding houses, rates, etc. These inquiries come from every section of the United States, and in a great many instances are in response to the thousands of pamphlets advertising Gainesville and these attractions, which have been sent out by the Conference advertising committee. This pamphlet comprised thirty-six pages, illustrated, and contains several views and street scenes of Gainesville. The committee very thoughtfully sent out this pamphlet, with other printed matter, to more than two hundred religious papers throughout the United States, a great many of which have responded by giving the attractions liberal mention. Advertising matter has also been sent to the various publications and ministers throughout the State, with a request to advertise the Conference in every way possible, and good results are anticipated from these sources.

"From present indications we are going to have an unprecedented crowd," remarked Secretary Bayer Wednesday. "I am receiving dozens of letters every day from every section of the country asking for general particulars, and our stenographer is kept busy answering these communications. Last year was a big one for these attractions, but I anticipate that the attendance at the coming session will increase in the neighborhood of forty per cent."

ISLAND GROVE NUPTIALS.

Marriages of the Misses Cail Occurred Within Few Days of Each Other.

Island Grove, Jan. 11.—Married, at the residence of and by Justice A. Morrison, on January 2nd, 1905, Mr. Chas. Casagne of Baltimore, Ind., and Miss Omera Cail of Island Grove. No cards.

On January 8th, 1905, at the residence of and by Justice A. Morrison, Mr. James G. Mordacal of Savannah, Ga., and Miss Ollie Cail.

The bride was attired in a neat suit of grey merino, with hat and gloves to match, and wore a white silk scarf around her neck and a white sash of ribbon around her waist. The groom was neatly attired in a suit of black and presented a very genteel appearance.

Their friends extend to them their warmest congratulations for their future happiness and success in life, and may they never want for friends should adverse fortune frown, and rejoice with them now as life's vale is strewn with flowers fresh.

Herman Westphall, a prominent young gentleman of Kansas City, has been visiting his brother, A. M. Westphall of Island Grove, and seems charmed with the climate of Florida so much that he is contemplating a return to the State at an early day to make it his home. He has made a pleasant impression upon the people and a warm welcome awaits his return. He made many warm friends at Island Grove who seemed to regret his departure as they gathered at the home to take leave of him.

To the Public. The Diamond Ice Co. having just been incorporated will, on January 1st, 1905, succeed to the old partnership of Stringfellow Bros. & Livingston, taking on the assets and operating the factory for the benefit of the stockholders. All accounts must be settled on or before that time, as an entirely new set of books will be opened, and all patrons of the old company are requested to call at once and settle their accounts. No new accounts will be opened with persons who have failed to settle their old accounts. Yours truly,

RUSH—DOKE.

Marriage of Two Popular Young People at Judson Recently.

Judson, January 11.—The residence of C. C. Doke was the scene of a beautiful marriage Tuesday evening when E. A. Rush led to hymeneal's altar Miss Vella Doke, the accomplished daughter of Mr. and Mrs. C. C. Doke. The home had been beautifully and artistically decorated for the occasion, being a perfect bower of roses, holly and other evergreens. Long before the appointed hour the parlor was crowded to its fullest capacity. Prof. Daymond presided at the piano and promptly at 7:30 o'clock the bridal party entered, marching to the sweet strains of the "Wedding Bell March." The party was led by Miss Frankie Sheffield and Pamna Doke, the candle bearers, and Herbert Weeks and Miss Donnie Doke, followed by Louis Abbott and Miss Annie Doke and little Emma Yancey and Catherine Sheffield, the flower girls, who spread sweet flowers in front of the bride and groom.

The picture was a pleasing one—the background of evergreens and the bright young faces and beautiful dresses upon which the light cast its brilliant rays, all conspired to form a picture long to be remembered by those who were present.

The ceremony was performed by Rev. S. W. Sheffield, former pastor of the church here.

After the ceremony the bridal party, together with the family and friends, repaired to the home of the bride's parents. After congratulations had been showered upon the happy pair, a sumptuous supper was spread.

The bride is an accomplished young lady, and Mr. Rush is to be congratulated upon his success in securing such a prize.

The groom is a prosperous orange grower of Port Orange.

They were the recipients of many useful and costly presents.

MICANOPY'S NEW INDUSTRY.

H. M. Sherrouse Constructing Fine Mill—Contemplated Improvements.

The hustling town of Micanopy appears to be enjoying her proportion of the prosperity which is now evident in every section of the county.

Among the improvements at Micanopy which is probably of the greatest magnitude is the erection of the big veneering mill of H. M. Sherrouse, who has almost completed the factory, and expects to have the plant in operation within the next three weeks. Mr. Sherrouse has for several years conducted a small mill at Micanopy, which appeared to meet the demand; but realizing the rapidly increasing production of fruit and vegetables, he felt that his present plant would not be sufficient, hence with commendable energy he is constructing a new and much larger mill, which will be equipped with all modern machinery for the manufacture of crates, boxes and baskets.

With the erection of the proposed ice plant by the Diamond Ice Company of this city and other improvements which are contemplated, Micanopy will soon enjoy a position in the front rank of commerce and manufacture in this section.

Judson Jottings.

Judson, Jan. 11.—I. N. Woods, our merchant and postmaster, went to Montbrook Sunday, where he and Miss Ethel Willis were joined together by the holy bonds of matrimony. They returned today. We wish them a long and happy life. Mr. Woods' father, Leroy Woods, is very ill.

Mrs. L. R. Weeks is improving. She was quite sick last week. Her relatives and friends will rejoice at the news of her taking a turn to get well.

John L. Carter, the efficient clerk of R. S. Tucker, has moved back to his farm, about six miles from here.

Homer Love is shipping his cottonseed. He is contemplating moving his mill from here to the new railroad at Trenton.

The Secret of Success.

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the two greatest enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it has proved itself the best of all liver regulators? August Flower has a matchless record of over thirty-five years in curing the ailing millions of these distressing complaints—a success that is becoming wider in its scope every day, at home and abroad, as the fame of August Flower spreads. Trial bottles, 25c; regular size, 75c. For sale by W. M. Johnson.

A Sudden Death.

The death of Mrs. Minnie Purcell, wife of Rev. I. P. Purcell, formerly pastor of the C. M. E. Church in this city, at her home, 702 North Sixth street, removes from our midst one of the most sainted women of the city. Mrs. Purcell's death occurred at 1:15 a. m. Sunday morning, she having had a stroke of paralysis at 10 p. m., only surviving it about three hours. Medical aid was immediately summoned and all that was possible was done, but of no avail.

Mrs. Purcell was a Christian lady and her Christian influence was felt throughout the city. The funeral of the deceased was held at St. Paul C. M. E. Church at 2 p. m. Tuesday, and was attended by a large concourse of relatives and friends. She leaves a husband, four daughters, two sons, one of whom is only seven years old, and a host of friends to mourn her loss. Her funeral was conducted by Rev. J. Chavas, present pastor of the church, aided by most all of the colored ministers of the city.

The relatives of the deceased desire to thank their many friends in the city, both white and colored, who have rendered them so much aid and assistance since the death of their beloved wife and mother. A Relative.

New Store at Rochelle.

E. F. Zetrouer, who was born and reared in this county, but for the past two or three years residing at Tampa, where he has been engaged in the practice of law, has decided to return to his old home and reside here permanently.

It is announced that Mr. Zetrouer will open a general store at Rochelle, and inasmuch as he is quite popular among the people of that section, it is needless to add that he will enjoy a fine trade.

Keep your eye on Rochelle. The progressive village will soon have three up-to-date general stores, and it is safe to venture that within the next five or six years, at the present rate, it will become one of the most important towns in the county, possibly ranking fourth. Business men appreciate the advantageous location of Rochelle, and are not slow in taking advantage of it from a commercial standpoint.

A Fine Catch.

Mr. Whitemore of Bowling Green, Ky., who is known among his friends at the Home as "the dead game sport," went fishing to Prairie Creek with C. D. Schafer yesterday and retained his reputation as far as the "sport" was concerned, although Mr. Schafer was not far behind him.

These deciples of Isaac Walton, succeeded, after a few hours' sport, in landing about seventy-five pounds of fine fish of all varieties, including trout, pickerel, bream, perch, etc. The load was so heavy that it was a difficult matter to lift it. The fish were taken to the Home, where the guests will feast on members of the finny tribe to their hearts' content.

Mr. Whitemore is delighted with his trip, and says he believes Florida has the finest fishing grounds in the United States.

TTS LOST OPERTY BY FIRE

His House, With All Contents, Burned on Monday Evening.

LOSS ABOUT THREE THOUSAND

With Small Insurance—Fire Discovered In the Kitchen Early in the Evening, But Origin Was Unknown—Mr. Watts And Family Here.

The home of Mr. and Mrs. Henry F. Watts, located about two and one-half miles northeast of the city, was entirely destroyed by fire about 8 o'clock Monday evening, the building and its contents having been consumed. The only property saved was a sewing machine, two chairs and a half-dozen mattresses.

The origin of the fire is unknown. Mr. Watts, in referring to the matter Tuesday, stated that on Monday evening he was engaged in butchering a number of hogs. Upon finishing his work, about 7:30 o'clock, he went into the house and sat down to a daily practice, that of reading The Sun. While deeply interested in his work Mr. Watts noticed a reflection from the kitchen, at the same time exclaiming that the house was on fire.

Every effort was made to save the property, but without avail, and in a short time the house, with contents, had been reduced to ashes.

Mr. Watts stated that his loss, including building and furniture, would reach in the vicinity of $3,000. He is positive of $600 insurance, but says he could not say definitely whether he was more fully insured or not.

Mr. Watts seems to be a creature of misfortune as regards loss by fire. About four years ago he was the victim of a similar occurrence, resulting in a complete loss of all his possessions. He has the sympathy of his friends and the public generally.

Mr. and Mrs. Watts are temporarily at the home of Judge and Mrs. Syd L. Carter, East Gainesville. While it is positive that he will rebuild his home, it is difficult to tell at this time just when this will be done.

ACQUIRES NEW PROPERTY.

R. T. Schafer of North Gainesville Purchases Fine Lot Adjoining Home.

R. T. Schafer, the North Gainesville baker, has added another valuable piece of property to his possessions, having purchased the lot adjoining that of his own from Francis Cellon.

This lot is one of the most desirably located in North Gainesville. Its acquisition gives Mr. Schafer a "strip" facing two streets, which comprises two large and handsome building lots. The friends of this young man are congratulating him upon his purchase.

Oldest Land Office in Country.

Huntsville, Ala., Jan. 10—The United States land office in this city, which has been ordered discontinued on Feb 28, and moved to Montgomery, is the oldest active land office in the United States. It was established in 1810 and is, consequently, 9 years older than the state itself. Its territory includes old Lebanon, Cedar Bluff and Center land divisions, these offices having been discontinued more than a quarter of a century ago. Since the establishment of this office 94 years ago, there have been 28,393 homestead entries approximating 3,000,000 acres, besides many thousand of cash purchases of Cherokee Indian school lands.

Sheriff Has Charge of Woman.

Cleveland, O., Jan. 10.—Judge Wing, of the United States district court, has abrogated his recent roder that no person should be allowed to see Mrs. Chadwick in the county jail without a written permit signed by the United States marshal. His decision places Mrs. Chadwick absolutely under the jurisdiction of the sheriff while she continues to be confined in the county jail, and the latter official will have the sole authority to say who shall or shall not see her. It is intimated that the federal officials may take further action to prevent this, possibly by removing Mrs. Chadwick to some other jail or prison.

Spoiled Her Beauty.

Harriet Howard of 209 W. 35th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum, or eczema, for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. Twenty-five cents at all druggists.

Wounds

and sores of any kind, caused by any kind of accident, cuts, burns, scalds, bruises, sprains, etc., are best treated by the immediate application of

HAMLINS

WIZARD OIL

This great, soothing, curative remedy relieves pain, reduces swelling and inflammation, and heals up all open wounds and sores. It is the one perfect, modern dressing, or treatment, for a wound. Its quick use will positively prevent blood poisoning. Always keep it at hand.

Says Mrs. Jessie Farris, of Elizabeth, Ky.: "My little boy was badly burned on both legs, which were so drawn out of shape that he could not even crawl. I tried many remedies without relief, but finally Hamlins Wizard Oil made a perfect cure, and he can now walk and run. We thought we should have to amputate both his legs, and feel that Hamlins Wizard Oil saved his life." Price 50c and $1.00.

PATENT BUTTON SAVES LIFE.

Prevented a Knife Entering His Body During a Fight.

San Francisco, Jan. 10.—A patent metal hook or button which substitutes for an ordinary button on the wearing apparel of Fred Reidel, a grocery clerk living at No. 53 Scott street, saved the young man's life.

According to the surgeons who sewed up the inch-long wound which now marks Reidel's abdomen, the knife of George E. Lederer would have carried deadly results had it not been has abrogated his recent order that no which caused the blade to glace upward, and thus narrowly miss the vital organs.

Reidel received his injury as the termination of an hour's wrangle between himself and Lederer. The latter is a stenographer, residing at No 223 Pierce street. The wound was given him in the midst of a free-for-all fracas which took place in the park opposite Keidel's home. It happened at 10 o'clock at night.

"We were clinched," said the wounded boy as he lay in his bed. "Suddenly I felt a sharp, stinging pain in by stomach. I realized that Lederer had a knife and that I had been stabbed I broke away and ran home. When I arrived my clothing was soaked with blood."

SPIRITUALST COLLAPSED.

Was Pastor of Church and Prominent Among Her Sect.

New York, Jan. 10.—Mrs. Mary S. Pepper, pastor of the First Spiritualist church in Brooklyn, and widely known among followers of spiritualism, collapsed from heart trouble Sunday night in her pulpit just at the conclusion of a "reading" in which she had denounced an attempt of a young man in the audience of 500 or 600 to trick her. Attempts by persons in the church to restore Mrs. Pepper to consciousness were fruitless, and two physicians were summoned. They succeeded finally in restoring her and she was removed to her home in a cab.

The collapse of the woman came soon after the conclusion of her "reading." As is customary in the church, a number of articles belonging to dead persons were placed upon her desk, and she announced that she would put herself in communication with the spirit world. The first article was in a sealed envelope.

LETTUCE MOVEMEMT HAS BEEN HEAVY

About Twenty Carloads Shipped From G. & G. Alone.

COVERED CROP NOT TOUCHED

It Has Been the Unprotected Crop Harvested So Far, With Few Exceptions—Prices Have Been Good. The Cauliflower Crop.

Notwithstanding that the protected or covered lettuce crop has not yet begun to be harvested, the unprotected crop, which has been unusually early this season, has been moving regularly, and from the lettuce section, especially along the line of the Gainesville and Gulf, the movement has been good.

An official of the Gainesville and Gulf Tuesday stated that so far this season about twenty cars of lettuce had been shipped from the farms traversed by his road, and that indications pointed to a still further increase.

The movement of cauliflower is expected before the end of the week. There is a vast acreage of this delicious and well-selling vegetable along the Gainesville and Gulf. Cauliflower always brings fancy prices, when it is good—and that is the only kind grown in this section. The growers consequently expect to reap a good thing from this product.

Indications are that there will be on the line of the Gainesville and Gulf the coming season the largest acreage in potatoes ever known to this section. The movement of seed potatoes is heavy, and all planters expect to sow liberally.

Addition to Menagerie.

A valuable addition has been made to the Brown House menagerie which will be appreciated, especially by the Northern tourists who will visit this hospitable resort the coming season. This addition is in the form of a trio of young bald eagles, recently hatched, and which were captured in Santa Fe hammock. Manager Joe Ettel secured the birds at a great deal of trouble and expense—but he was determined to have them at any cost.

The collection at this menagerie is now one of the most diversified and interesting in this section, and is admired by all who see it.

Jersey Stock Arrives.

The Jersey stock recently purchased by Manager N. A. Callison of Spring Park Farm, Bennington, from the Biltmore Estate, Biltmore, N. C., arrived in the city Tuesday by express, and attracted a large crowd. The cattle are handsome, and were admired by all who saw them and appreciated good blood. They were taken immediately to Spring Park Farm, where they will be used for breeding purposes.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Explorers Reported Safe.

New York, Jan. 10.—Anxiety as to the safety of the steamer Baronique bearing Earl Fitzwilliams and a party of distinguished Englishmen, voyaging in the southern Pacific, has been set at rest by dispatches from Panama, cables the Herald's London correspondent. Mysteriously circulated reports last week were to the effect that an accident had befallen the party but they apparently had little foundation and the earl is now said to have landed in Panama, and is on his way home.

Greek and Latin Clergy Fight.

Jerusalem, Jan. 10.—The Greek Christmas observances in the Grotto of the native city at Bethlehem were marked by a sharp fight between Greek and Latin clergy arising from the old-time jealousy regarding protection of the Grotto. The Greek patriarch was celebrating midnight mass when Franciscan monks created a disturbance. A collision ensued resulting in some bloodshed. The governor had to be summoned to quell the rioting.

KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

MOZLEY'S LEMON ELIXIR.

SHOT OUT BOTH HER EYES.

Woman, Handling Parlor Rifle when It Is Accidentally Discharged.

Tifton, Ga., Jan. 10.—A very sad accident occurred Sunday at McDonold's mills, in Coffee county, in which Mrs. W. M. Buford, an aged lady at that place, was seriously if not fatally injured.

W. T. Buford, a son of Mrs. Buford, and his little boy, Lester, 6 years of age, had gone hunting with a parlor rifle. Upon their return to the premises Mr. Buford gave the rifle to his little boy, Lester, and asked him to carry it to his grandmother and have her put it away. Lester went in the house with the rifle, and when his grandmother reached to take it from him, Lester threw it to his shoulder.

The rifle was discharged, the ball first striking Mrs. Buford in the left temple, going straight through the head, taking both eyes out and lodging in a plank in the wall.

The best medical aid was at once summoned, and at last accounts Mrs. Buford was resting as well as could be expected, though it is said that there is no hope for recovery.

RECOVERS HIDDEN TREASURE.

According to Reports, $150,000 Was Found in Old Brick Vault.

Ne wYork, Jan. 10.—A tale of recovered hidden treasure amounting to $150,000, according to some versions, has become public to ornament the histories of sudden wealth in the recent Bronx real estate boom.

In an old brick vault underneath the site where once stood Theodore Macey's mansion, workmen, who are excavating are said to have found a rustry, iron-bound chest containing enough money to pay for the modern apartment house that is to be erected. The chest is now in the house of the owner of the ground.

The Macey mansion, with the single exception of a clubhouse, was the last of the many colonial homes that since ornamented what is now the Bronx. The house was situated at Longwood and Prospect avenues, and was sold a short time ago to the present owner.

Clerk Kills His Employer.

Selma, Ala., Jan. 10.—Sunday morning at 11 o'clock Walter Lawrence shot Herman Belman, the wound proving fatal. The shooting occurred in Belman's store, Lawrence was a clerk of Belman's. There were no witnesses. It was first given out by Belman as an accident, but later, when told that he would probably die, made statements that it was not an accident, but that Lawrence shot him when being accused of being too intimate with his (Belman's) wife. Lawrence is in jail.

Confederate Officer Dead.

New York, Jan. 10.—Major Charles H. Parmelee, a native of Augusta, Ga., who served as a commissary officer in the confederate army, is dead at home here with liver trouble. Mr. Parmalee engaged in the cotton business after the war and retired some years ago. He was 75 years of age. His mother, who is 93 years old, and made her home with her son, is seriously ill and has not been informed of his death.

Imperfect Indigestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

SHOT DOWN NEAR HIS HOME.

Atlanta Man Victim of Footpads—Little Hope of Recovery.

Atlanta, Jan. 10—William H. Turner was shot down by footpads Saturday night, and carried to the Grady hospital Sunday because his condition was not as favorable as had been hoped for.

A hemorrhage is almost positive proof to the physicians that he has been shot through the lungs, and a fever, which developed late Saturday night, gave rise to serious apprehension as to his recovery.

The shooting of Turner has caused much discussion in police circles. He was shot so near his home that his wife heard the report of the pistol. She says when the noise startled her she at once thought something had happened to her husband.

Bill to Tax Bachelors.

Boonville, Ind., Jan. 10—Henry Elizs Agar, representative-elect from Gibson county, Indiana, believes that all men should be married and that a bachelor has no right to live single and has decided to introduce a measure at the next session of the legislature to tax bachelors. The bill provides a tax of 10 cents on each $100 of the salary of all able-bodied bachelors over the age of 35, who have an income of $100 or more, provided the bachelor is not the mainstay of the family depending upon him for support. He proposes to divide the revenue received from this assesment, giving 10 per cent to the school fund and 90 per cent to the various orphans' asylums of the state.

Prominent Horseman Suicides.

Thomasville, Ga., Jan. 10—Barton G. Leg, a prominent horseman, and well known throughout south Georgia, suicided here this morning at 8 o'clock. He went to an outbuilding at his home and shot himself through the temple with a pistol. His body was discovered by his wife. He left a note saying that ill health was the cause of his suicide. Recently he had been in financial difficulties. The verdict of the coroner's jury was "death by his own hands." The victim leaves a widow and three children. He was well connected. The funeral will occur tomorrow.

Every Heart-Ache

Every pain in the breast, difficult breathing, palpitation, fluttering or dizzy spell means that your heart is straining itself in its effort to keep in motion. This is dangerous.

Some sudden strain from overexertion or excitement will completely exhaust the nerves, or rupture the walls or arteries of the heart, and it will stop.

Relieve this terrible strain at once with Dr. Miles' Heart Cure. It invigorates and strengthens the heart nerves and muscles, stimulates the heart action, and relieves the pain and misery.

Take no chances; make your heart strong and vigorous with Dr. Miles' Heart Cure.

"I suffered terribly with heart disease. I have been treated by different physicians for my trouble without results. I went to a physician in Memphis, who claimed that I had dropsy of the heart. He put the X-ray on me, and in connection with his medicine he came near making a finish of me. Some time before this a Mr. Young, of St. Louis, was in our town. He saw my condition, and recommended Dr. Miles' Heart Cure to me. I gave it little attention until my return from Memphis, when I concluded to try it, and am pleased to say three bottles cured me.
CHARLES GOODRICH,

T[illegible] Gainesville Graded and High Sch[illegible]ol opened for the spring term yester[illegible]y with a full enrollment, and Pri[illegible]ipal Kellum anticipates a prosper[illegible]s term.

M[illegible]ss Lessie May of Perseverance sch[illegible]l and Miss Eva Fildes, the effici[illegible] principal of the Grove Park sch[illegible]l, were in the city Saturday on bus[illegible]ess connected with the school boa[illegible]d.

A[illegible]long the prominent folks from the East End who favored Gainesville wit[illegible] a visit yesterday were Chas. and Ge[illegible]ge Sparkman. The latter is a me[illegible]hant, while the former is a progre[illegible]ive planter of that section.

A[illegible]onzo Colson of Trenton was in the city yesterday, having come with his son Shelton, a student of East Florida Sem[illegible]inary who has been spending the hol[illegible]days with his parents. While here Mr Colson was the guest of relatives.

W[illegible]. E. Crozier went yesterday to Ha[illegible]ue, where last night he visited the lod[illegible]e of the Modern Workmen of the We[illegible]ld, of which he is State organizer. Mr Crozier organized a lodge at Willis[illegible]ton Saturday with a fine membership.

Mrs. A. Milliner McMillan, nee Miss Alic[illegible]e Milliner, was in the city from Ha[illegible]nesworth, where she is teaching sch[illegible]ool, Saturday and Sunday. It will be [illegible]remembered that on Christmas Day Mi[illegible]s Milliner was married in Tampa to Harry McMillan.

J. W. English of Tacoma was a visitor to [illegible]his city yesterday. Mr. English sta[illegible]es that his brother, Warren English, is suffering a great deal from the eff[illegible]cts of blood poison, resulting in a lac[illegible]erated hand. It is to be hoped he wil[illegible] soon entirely recover.

Prof. J. H. Fulks, who is filling the unexpired term at the Archer school vice Prof. McIntosh, appointed to be chief clerk to State Superintendent Holloway, spent Sunday with his family here. He is well pleased with the school, which is one of the best in the county.

Mrs. Wm. M. Holloway has returned from Tallahassee, where on the 3rd inst. her husband, Hon. Wm. M. Holloway, was inaugurated as State Superintendent of Public Instruction. Mrs. Holloway attended all the inaugural exercises, including the ball, being handsomely attired in a champagne silk gown at the latter festival.

The interior of W. R. Thomas' stable is being materially altered by the construction of offices. When finished these offices will be not only sources of comfort, but will afford extraordinary conveniences for the transaction of business. Major Thomas expects to have a private office, which it is needless to add will be finely furnished and scrupulously well kept. The work is being done under the supervision of Contractor Wittstock.

F. E. Cellon of Hague, one of the most progressive truckers and farmers of that place, was in the city yesterday and made The Sun an agreeable call. It will be remembered that Mr. Cellon, while covering his lettuce crop on a frosty morning, had his hands frozen, from which he has suffered a great deal. Friends will be glad to learn, however, that his condition is rapidly improving.

Will Mayfield of Williston, who has been clerking in the store of Saunders & Earle, has resigned his position to attend the West Florida Seminary at Tallahassee, and has been succeeded by Frasier Stokes, an ambitious young man of the vicinity of the Devil's Millhopper. Clarence Wells, who has also been employed by this firm as a salesman, has resigned, and has decided to engage in the trucking business.

J. W. Patton has returned from Alachua, where he has been engaged in surveying for Venable & Jones. Mr. Patton states that this enterprising firm recently purchased from Major George R. Fairbanks six thousand acres of fine timber land for turpentine and mill purposes, which gives them one of the finest tracts in the State. He has been engaged to survey this property, which will require several weeks.

Attention is called to the advertisement of the Ocala House Wine Rooms of Ocala. This house has long made a specialty of out of town orders and are well known in this territory for promptness in filling orders, for reliability and high standard of goods and for reasonable prices. Every possible attention is paid to their customers, and when once they secure a first order it is invariably followed by others. Their price list will be sent on application. Just now they are making a specialty of fine old Anderson County Rye; four full quarts for $1.40, express prepaid, nicely and securely boxed and with no marks on box. The firm also has special facilities for securing the best corn whiskies ever brought to the State. Write them.

READ THIS.

Ripley, Tenn., June 1, 1901.

Dr. E. W. Hall, St. Louis Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give your "Texas Wonder" a trial. I have used one bottle, and although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

Yours truly,
W. H. BRUTON,
Pastor Baptist Church, Ripley, Tenn.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

W. J. Hodge, C. W. Wells and A. M. Ellis formed a trio of Alachua people who visited Gainesville yesterday.

After a brief visit to relatives in this city, Mrs. Theo. Hudgins and daughter returned yesterday to their home at Clearwater.

A new shed is being substituted in front of the Broome building, East Main street, in place of the old one which has furnished faithful service for many years.

The Diamond Ice Company of this city, with the view of controlling the ice business north and south of Gainesville, are to erect at once a ten ton plant at Alachua, and a plant of like capacity at Micanopy. This will give to Gainesville and Alachua county a surplus of ice which we have never yet enjoyed as well as adding greatly to the manufacturing interests of our section. In connection with this enterprise we propose to put in an up-to-date cold storage plant at Alachua. Diamond Ice Company. 2td-2tw

Rev. Thos. P. Hay of the First Presbyterian Church has announced that the following new members have been received into the church: Mr. and Mrs. A. S. Albright, son Russell and daughter Nellie, and E. W. Forman, all of Terra Alta, W. Va., and Mrs. Robt. E. Davis of this city. Mr. Hay very significantly adds for the information of the congregation that Mr. Albright and family reside in the Arnold house, Northeast Gainesville, Mr. Forman at 512 West Main street, N., and Mrs. Davis on West McCormick, near Arredondo street.

Tax Collector Dickinson and Assessor Colson have gone to the West End, where they will spend a few days officially. They have just returned from High Springs and Alachua. Collector Dickinson states that the taxpayers have met him promptly and willingly, with the result that collections have been good. He says it is the best evidence of the prosperity of the people in the country, for those who a few years ago found it a difficult matter, and in some instances a hardship to pay the taxes on property, now do the same cheerfully and without protest. This is indeed a condition of affairs for which everyone should feel thankful.

From Thursday's Daily Sun:

C. W. McDonald of Rocky Point was trading in the city yesterday.

Rev. M. H. Outland of High Springs was among the visitors to this city yesterday.

Captain Theo. Willard of Willeford was transacting business in this city yesterday.

The four-year-old daughter of Anthony Polite, colored, had the misfortune recently to be severely burned, from which the child has been suffering considerably. Anthony's friends, both white and colored, sympathize with him in this trouble.

J. W. McCollum has purchased the Ellis property, Alachua avenue, opposite the home of B. R. Colson. The lot is 70x125, and is among the most desirable property in the city. Dr. McCollum has not yet decided whether he would place the property on the market or build a nice home. His friends are congratulating him upon the purchase.

Mr. and Mrs. H. H. McCreary have returned from Cedar Key, where they went to attend the funeral of Captain W. T. McCreary, which occurred Wednesday morning. The funeral was largely attended, which was evidence of the general popularity of the man. Deceased was well and favorably known in this section, and friends received the information of his death with sadness.

Engineer Carney of the High Springs-Citra run, Atlantic Coast Line, had the misfortune yesterday to painfully injure his right hand while assisting the fireman in throwing wood into the furnace. The hand was so badly injured that the engineer could not take his train to High Springs. The train was taken in by the colored fireman, whom it is said performed his work well and efficiently.

Mrs. B. H. Powell of High Springs was in the city yesterday, the guest of Mrs. M. B. Saunders. Mrs. Powell has been for the past few months in Lexington, N. C., where she went for her health. Mr. Powell, who was for several years engaged in the mercantile business at High Springs, is now in Arkansas, where he is looking for a location. In the meantime his wife will continue to make her home in High Springs.

Carload of Lettuce.

A solid carload of lettuce was consigned from various growers in this section to New York via the Seaboard Air Line Wednesday night.

The Seaboard is now operating a daily refrigerator car service, which is a great convenience to the growers of this section, and is appreciated.
